## NORTHWEST COLLEGE PERSPECTIVE

Northwest College is a regionally-accredited, Christian coeducational undergraduate institution offering baccalaureate college education under the control of the Alaska, Montana, Northwest, Southern Idaho, and Wyoming districts of the Assemblies of God. The Oregon district also cooperates in its operation. All these districts are represented on the College's Board of Directors.

## History And Location

Northwest College was founded by the Northwest District Council of the Assemblies of God and opened to students on October 1, 1934. The District Presbytery appointed Dr. Henry H. Ness to be the first president. The College was housed in the facilities of Hollywood Temple, Seattle, Washington, for the first twenty-five years of its existence. Dr. C.E. Butterfield succeeded Dr. Ness in 1949, and Dr. D.V. Hurst assumed the presidency in 1966 and served through 1990. He was succeeded by Dennis A. Davis, who is now serving as the fourth president of the college.

Originally known as Northwest Bible Institute, its institutional name was changed to Northwest Bible College in 1949, and to Northwest College of the Assemblies of God in 1962. Each change represented a stage in its curricular development.

Academically the College progressed from a three- to a four-year curriculum in 1948, and in 1955, a Liberal Arts division was organized. Milestones of academic development and progress were marked by the achievement of professional accreditation by the American Association of Bible Colleges in 1953, and in 1973 by the granting of regional accreditation by the Northwest Association of Schools and Colleges.

In 1958, the College secured a new thirty-five acre campus in Kirkland, in the greater metropolitan area of Seattle. Since then 21 more acres have been added to make the present fifty-six acre campus. Located at 108 th Avenue N.E. and N.E. 53rd Street just ten miles from downtown Seattle, the campus is an ideal setting for study, recreation, and inspiration. The campus is also near to industry and close-at-hand employment opportunities.

Over the years the College's graduates and former students have engaged in full-time Christian service or in professional, business, or vocational occupation in fulfillment of their training objectives at the College.

## College Mission

The mission of Northwest College is to provide, in a distinctly evangelical Christian environment, quality education to prepare students for service and leadership. The college experience should:

1. develop the whole person through general studies integrated with biblical knowledge;
2. include professional and vocational skills in the student's preparation for service in the world;
3. help to fulfill the Great Commission and to propagate the historic faith of the sponsoring church.

## Philosophy

Northwest College's concept of education is distinctively Christian in the evangelical sense. It recognizes the authority of the Bible as a divine communication of truth. It views humanity as having been created by God with intellectual, physical, social, and spiritual potentialities which require development and needs which require fulfillment if the individual is to be a whole person whose life is useful, complete, and satisfying.

As a morally responsible being whose choices and actions determine usefulness to the Creator and to humankind, as well as the ultimate ends of one's existence, the individual has a need to recognize and appreciate righteousness, beauty, and truth wherever one finds them. Education should develop moral, spiritual, intellectual, and aesthetic awareness and values.

As a creature of God, each person is an individual of intrinsic worth and dignity. In a society of free persons it is essential that each learn to respect humankind and understand their views while maintaining one's own integrity. The individual must have knowledge of one's culture and of self, in order to solve the complex problems of modern life.

Northwest has a commitment to truth and believes that all areas of true knowledge are ultimately compatible. The accumulative experience of humankind has resulted in a residue of tested wisdom and knowledge
communicated. True knowledge may be discovered, too, through the careful and reverent scientific scrutiny of nature and of humanity. Neither the past nor the present has a monopoly on truth.

## Educational Goals

In view of its distinctive philosophy, Northwest College seeks to provide education which will introduce the student to the organized fields of learning and will acquaint one with the Christian theistic view of the world and of humanity and one's culture. Such an education is intended to develop the whole person in a balanced and useful manner.

Since Northwest believes that responsible actions in the present are dependent in part upon knowledge of humanity's past experience, it seeks to communicate to the student what may be known of people's cultural heritage. It seeks to impart knowledge, stimulate awareness, and develop appreciations.

Northwest seeks to cultivate Christian character in its students. It offers a core of biblical and theological studies as the foundation for faith, practice, and spiritual maturation. It desires that each student shall maintain a right relationship to God and to humanity, and be prepared to act responsibly and maturely in contemporary society.

Northwest is concerned with the intellectual development of its students. It desires that its students will learn to evaluate and use knowledge, so that they can continue to make new discoveries throughout life.

Northwest recognizes that people are social beings and that they are debtors to society; no one stands alone or exists without purpose. It seeks to awaken social understanding and concern and to motivate its students to commit their lives to worthy goals of service to God and humanity. At the same time it endeavors to stimulate in its students a social and moral perceptiveness that will make them worthy and constructive critics of contemporary society.

Northwest realizes the importance of physical and mental fitness, and encourages its students to participate in healthful activities and to develop habits which will contribute to their physical well being. It seeks to give them a better understanding of humanity's biological and psychological constitution.

## Statement of Faith

- We believe there is one God, eternally triune as Father, Son, and Holy Spirit; who is Creator and Sustainer of the universe and of mankind, the Savior and Judge of all.
- We believe the Bible is God's written word, inspired by the Holy Spirit and thus infallible in all its statements.
- We believe God has completely, with finality, and infallibly revealed Himself in His son, Jesus Christ, the living Word, who was both fully God and fully man.
- We believe in His virgin birth, in His sinless life, in His miracles, in His vicarious and atoning death, in His bodily resurrection, in His ascension to the right hand of the Father, in His literal return to this earth to establish His millennial kingdom.
- We believe the Holy Spirit indwells all who put their trust in Jesus Christ as Savior and Lord, and that through them He demonstrates in the present world the powers of the age to come.
- We believe the experience of the baptism of the Holy Spirit is for all believers today and is accompanied by the spiritual manifestation of speaking in other tongues.
- We believe mankind exists in a state of sin, which involves moral and spiritual separation from God, but that through repentance and faith they can experience restoration to God in which God declares them free from guilt and gives them eternal life.
- We believe the restored person will seek to demonstrate his love for God by a life of obedience and holiness.
- We believe there is one true and universal church embracing all true believers of all ages.
- We believe in the resurrection of the righteous to eternal fellowship with God and of the unrighteous to eternal separation from God.

## Accreditation and Educational Affiliations

Northwest College is accredited by the Northwest Association of Schools and Colleges (regional).

In May, 1992, Northwest College became the eighty-fifth college approved for membership in the Coalition for Christian Colleges and Universities, an association of Christ-centered colleges and universities of the liberal arts and sciences. The Coalition is committed to cultivating communities of educational excellence in which the Lordship of Jesus Christ is central. Membership in this esteemed association of Christian colleges and universities provides opportunities for personal and professional enrichment for students, faculty, and administrators.

The College is also approved by the Board of Education and Superintendent of Public Instruction of the State of Washington to prepare elementary and secondary education teachers and recommend for certification. It is a member of the American Association of Colleges for Teacher Education.

The College is endorsed by the Department of Education of the Assemblies of God and the Association of Christian Schools International.

The College is approved by the Federal and State Governments for student aid programs and for the training of international students. ## Pacific Rim Centre for Cross-Cultural Studies

The Pacific Rim Centre for Cross-Cultural Studies was established at Northwest College to facilitate the College's historic commitment to global exchange with particular reference to the countries of the Pacific Rim. It is authorized by a unique covenant of ministry between the College and the Division of Foreign Missions of the Assemblies of God. The purpose of the Centre is to facilitate cross-cultural understanding and friendship among global neighbors by providing opportunities for education and for the development of professional services.

Being a community of scholars and learners, the Pacific Rim Centre proposes to develop and maintain programs of instruction, research, and professional services which provide opportunities to:

1. develop sensitivity to cultural diversities and facilitate interpersonal adjustments needed for cross-cultural living and service;
2. facilitate language acquisition and effectiveness in cross-cultural communication;
3. form network relationships with international agencies, schools, and students in order to expedite cross-cultural interactions;
4. develop other skills which facilitate professional services crossculturally.

To facilitate its activities in China, the Pacific Rim Centre has entered into a network relationship with the Sunrise Educational Foundation Limited located in Hong Kong. This connection makes possible the placement of people as:

1. university students who will study Chinese language and culture;
2. English teachers who will teach for one to two years;
3. persons who are committed to long term professional service.

## Applied Science Center

The Applied Science Center exists to facilitate Northwest College's historic commitment to global involvement with countries around the world. The purpose of the Center is to facilitate cross-cultural understanding, friendship, and transfer expertise in biointensive food production and microeconomic development among our global neighbors. It will bring meaningful, low cost solutions to problems in food supply to the very poorest of the world's peoples. The Center will provide opportunities for education, training, and the development of professional services. The Applied Science Center specifically exists to facilitate nutritional and microeconomic development among the most needy groups of people on a worldwide basis.

Being a community of scholars and learners, the Applied Science Center purposes to develop and maintain programs of instruction, research, and professional service which provide opportunities to:

1. develop and apply biointensive nutritional and microeconomic technology for those in extreme poverty. (Biointensive means a technology that provides high production of vegetable, fruit, and animal matter for the purpose of providing human nutritional essentials. Biointensive usually includes the analysis and revitalization of severely damaged soils, waters, and ecosystems.);
2. develop sensitivity to human nutritional deficits, cultural diversities, and facilitate interpersonal adjustments needed for cross-cultural living and service; and to gain a deeper understanding of all human needs through involvement of ASC students and personnel in biointensive projects around the world;
3. develop and train in nutritional supplementation in such a manner as to assist the economic, educational, and spiritual revitalization of people suffering famine, chronic malnutrition, and economic insufficiency that denies them physical and mental security;
4. facilitate language acquisition and cultural awareness that will lead to effectiveness in cross-cultural communication;
5. form networking relationships with national and international agencies, schools, colleges, seminaries, students, and professionals, to expedite cross cultural and technically valid interactions;
6. identify, develop, and share with others skills which facilitate the dissemination of professional biointensive services, particularly to those least able to afford them;
7. assist in placing students, teachers, and professionals in response to current demands for this service;
8. give our Fellowship an outlet of ministry opportunity in response to the many that have expressed a desire to serve.

## Center for Adult Leadership Studies

Northwest offers several programs designed for those adults who cannot attend classes in the traditional format. Specifically, the LEAP (Leadership Education for Adult Professionals) office offers a degree completion program through an accelerated format. Also offered through Northwest's campus is a Master of Arts degree in Biblical Literature, through an arrangement with the Assemblies of God Theological Seminary. These classes meet on campus for one week every four months. Information on these programs is available through the LEAP office.

## Institute of Holy Land Studies

Northwest College is affiliated with the Institute of Holy Land Studies, a division of Jerusalem University College, in Jerusalem. This Institution offers specialized training in the fields of geography, archaeology, the history of the Holy Land, and Judaeo-Christian studies. Credits earned at the Institute are accepted at Northwest College, where applicable. Details may be secured from the Academic Affairs Office.

## Campus and Buildings

The campus is a semi-wooded tract of fifty-six acres overlooking Lake Washington and the city of Seattle. A view of the snow-clad Olympics graces the skyline to the west.

Twenty buildings are located on the campus. The administrative offices are housed in the Administrative Center on 108th avenue at the northwest corner of the campus. Many faculty offices and classrooms are found in the Ness Academic Center comprised of Bronson, Rice, Fee, and Williams Halls.

Williams Hall houses lecture rooms, laboratories, and storage space to support courses offered in chemistry, physical science, mathematics, and biological sciences. Additional classrooms and faculty offices are located in Fee Hall which is adjacent to Williams Hall.

The Butterfield Chapel and Amundsen Music Center are situated at the southeast sector overlooking the heart of the campus. Butterfield Chapel provides a spacious and worship-centered setting for the College's daily chapel services. It also contains the classrooms, rehearsal rooms, studios, and practice rooms of the Amundsen Music Center.

Clustered around the center of the campus is Millard Hall, Pecota Student Center, and D.V. Hurst Library. Millard Hall contains classrooms, offices, and an auditorium to accommodate lectures and special events. The Pecota Student Center houses student body offices, a snack bar, the College bookstore, a recreation area, and the College radio station.

Hurst Library holdings exceed 100,000 cataloged items and additions are made each year. Over 600 periodical titles are regularly received. In order to aid students in the field of education, a curriculum library is maintained. The ground floor of the Library contains the LEAP Degree Completion Program, a computer laboratory, classroom space, and faculty offices. The Librarian is a member of the American Library Association and the Association of Christian Librarians.

Northwest Pavilion provides gymnasium facilities for physical education instruction, recreation, varsity and intramural sports, and special convocations requiring seating for up to 1,000 persons.

Two large residence hall complexes provide housing for single students: the Crowder-Guy-Perks Residence Halls for women and the Gray-Beatty Residence Halls for men. The cafeteria is located near the residence halls.
"The Firs" (McLaughlin, Carlson, and Hodges) overlook the campus from the east. The seventy-eight apartment complex is for married students. Some of these apartments are two bedrooms with two baths for families. A small play area is available for children.

## Seattle Seahawks

Northwest College enjoys a unique relationship with the Seattle Seahawks since their entire professional football training facility is located on the College campus. Among the benefits to the College is the student use of a beautiful astro-turf athletic field, covered by a "bubble" in inclement weather, and interaction with Christian athletes who are part of the Seahawks organization.

The institutional seal of Northwest College embodies in the symbol the history, character, and purpose of the College.

It contains nine elements: The legal name of the institution; its year of founding; the Shield of Faith (Ephesians 6:16); the centrality of the Cross denoting the College's message to the world; the Lamp of Learning and open Bible denoting the foundational premise on which its total learning program is based; the small cross and crown denoting temporal and eternal aspects of the Christian life; and underlying the crest is a ribbon on which are inscribed the first words of the College Alma Mater, "Let Light Shine Out," denoting the historical purpose of the College realized in and through its student graduates who carry the gospel of Christ to the ends of the earth as laypersons and full-time Christian workers.

# DIVISION OF RELIGIOUS AND MINISTERIAL STUDIES 

Divisional Coordinator: Francis C. R. Thee

The Division of Religious and Ministerial Studies builds upon the Educational Goals of the College expressed in the General College Requirements and the Biblical Studies Core. We recognize that all truth is God's truth and that persons discover truth by reason, by scientific and aesthetic inquiry, and by revelation. The Division affirms that the Bible is God's unique written revelation, and that the knowledge of biblical truth is the foundation of every genuine search for truth.

Students may choose one of the several majors leading to the fouryear Bachelor of Arts degree or may choose a non-degree program in either the Diploma or the Certificate of Christian Studies. The specific objectives of the majors or other programs are listed with their descriptions in the following pages.

The Bachelor of Arts programs within the Division seek to provide educational opportunities to develop persons who are intellectually, spiritually, and functionally ready to engage in Christian ministry. Graduates of the division should be able to:

1. do biblical and theological research;
2. think critically about their world and how world issues impact Christian ministry;
3. communicate effectively the Christian faith, both in the Church and in the world;
4. demonstrate a continuing interest in lifelong learning and in the ability to apply truth to life;
5. approach their own spiritual lives contemplatively and reflectively;
6. express a genuine connection to and a caring for the world.

In addition to the programs offered, the Division provides biblical and religious studies for all students of the College. These studies are intended to help students achieve spiritual and moral character. They also enable students to appreciate and evaluate the religious aspects of their history and culture, and our Pentecostal heritage.

## 20 DIVISION OF RELIGIOUS AND MINISTERIAL STUDIES

## BIBLICAL STUDIES CORE

The College Educational Goals state, "Northwest seeks to cultivate Christian character in its students." Building upon the religious studies requirements in the General College Requirements, the Biblical Studies Core enables the student to form a foundation for faith and practice. Study of the Scriptures and theology should encourage the student toward comprehension of the revealed nature of God, growth in biblical knowledge, an understanding of Assemblies of God doctrinal positions, and development in spiritual maturity. The growth in maturity resulting from these courses should enable the student to better maintain a right relationship with God and other persons, and to exhibit a Christian character.

The student will take a minimum of 30 credits of Bible and Theology. These credits must include BIBL 1013 Exploring the Bible, THEO 1213 Christian Doctrine, BIBL 2313 Acts and the Expansion of the Church, THEO 2503 Pentecostal (A/G) Doctrines, and 18 additional credits of Bible and Theology. These additional courses must include at least one other course in each of the areas of Biblical Introduction, Old Testament, and New Testament. Some majors may require additional credits and/or specific courses or distribution of requirements.

## SECOND MAJOR IN BIBLICAL STUDIES

The 30 credits of the Biblical Studies Core may be considered a second major by students who are taking majors other than Biblical Literature or Religion and Philosophy. Those students who so choose have the option of declaring on their transcript a major in Biblical Studies as well as their professional major.

## BIBLICAL LITERATURE MAJOR

Coordinating Professor: Francis C. R. Thee
The Biblical Literature major has at its center the belief that the Bible is the inspired word of God, the only foundation for our faith and practice. Because of this, the major is designed to lead the student into the proper understanding and exposition of the Bible. The major seeks to do this by giving the student a broad knowledge of the background, content, and meaning of the Bible, and by helping the student develop exegetical skills for continuing study and communication of the Bible. Course offerings begin with a survey of biblical literature integrated with biblical history and supporting courses designed to give the student a background and general frame of reference on the Bible. Advanced courses go on to more detailed examination of specific books or sections of the Bible, providing opportunity for the student to develop analytical insight into representative types of biblical literature.

This major provides learning opportunities in biblical studies, enabling students, whether in vocational Christian ministry or in other vocations, to proclaim the gospel effectively in the church and in the world. It also provides a good foundation for those who are planning to pursue graduate studies. Students may develop their vocational interests by selection of a minor or electives of their choosing. In addition to achieving the general goals of the College and of the Division, completing this major provides learning opportunities which enable the student to:

1. acquire a knowledge of the content and background of the Bible appropriate to the Bachelor's degree;
2. use appropriate methodologies for Bible study;
3. interpret the Bible in accordance with generally accepted hermeneutical principles;
4. formulate a sound biblical theology;
5. discriminate between competing views of truth;
6. implement biblical truth in his or her personal behavior; and
7. proclaim biblical truth with greater confidence.

## CHURCH MINISTRIES MAJOR

## Coordinating Professor: Dwaine Braddy

The Church Ministries major is designed to prepare students for vocational ministry in the church both locally and globally. The core courses will help the student formulate concepts of the church and ministry and develop general skills needed to engage in ministry. The ministry concentrations will facilitate a particular emphasis in ministry.

In addition to the general goals of the College, completing this major provides learning opportunities which enable the student to:

1. understand a biblical theology of the nature and mission of the church, and of a divine call to ministry that embraces both vocational ministers and the ministry of all believers;
2. comprehend the purpose and structures of the various ministry programs usually found in local churches;
3. facilitate ministry to people in the various stages of life;
4. understand the nature and function of leadership, organization, administration, and relationships as applied to the ministry of the church;
5. pursue maturity in Christlikeness with a heart oriented toward winning, maturing, and developing others;
6. develop skills needed to engage in vocational ministry with particular emphasis in a chosen concentration;
7. be creative and innovative in meeting culturally relevant needs under the guidance of the Holy Spirit;
8. continue lifelong development of one's potentials and ministry gifts.

Recognizing that effective ministry depends upon competent understanding and skillful use of the Scriptures, Church Ministries requires a strong component of Bible and theology. Completing these courses provides learning opportunities which enable the student to:

1. understand the central message of the Bible and accept the Scriptures as the standard for Christian faith and practice;
2. know hermeneutical principles and Bible study methods needed to interpret correctly the Scriptures, including knowing how to use Bible study tools;
3. know how to apply biblical teaching to personal life and contemporary situations;
4. understand the central issues of evangelical Christian doctrine and know how these are formulated from biblical teaching.

## CHURCH MUSIC MAJOR <br> Coordinating Professor: William R. Swaffield

The Church Music major is designed to prepare the student for music ministry in the local church. The development of skills in conducting, arranging, voice, and piano are emphasized, together with the study of music theory, history, and literature. The practical aspects of church music ministry including worship leading, administration, and education are also a vital part of the program.

Since church music ministry also involves certain non-musical skills, the curriculum includes biblical and general studies. Courses such as counseling, psychology, and sociology, for example, help the church musician relate to individuals within musical groups in ways that often go beyond musical responsibilities.

In addition to achieving the general goals of the College and of the Division, completing this major provides learning opportunities which enable the student to:

1. serve effectively as a minister of music in a local church;
2. administer a church music program;
3. develop various types of church music ministries, including choral, instrumental, and congregational;
4. implement various methods and materials in a church music education program for all ages;
5. demonstrate the comprehensive musicianship required for effective church music ministry;
6. understand the proper function and importance of music in the total ministry of the church;
7. work as a member of a pastoral staff, submitting to the leadership of a senior pastor;
8. transfer to other institutions which offer more advanced music programs or post-graduate degrees in music;
9. minister in areas of church life other than music, in which general and biblical studies associated with the music major would prove helpful.

## RELIGION AND PHILOSOPHY MAJOR

Coordinating Professor: Darrell Hobson
The Religion and Philosophy major combines study in philosophy, religion, theology and Bible. The major encourages the student's integration of these disciplines with the goal of forming a well-balanced, thoughtful Christian world view. Graduates should be well prepared for advanced study in Seminary or graduate school. Graduates who do not choose to pursue advanced study will benefit from a broadening of their understanding as a basis for other career choices.

Bible: The graduate of his major will:

- Be aware of the general contents and central themes of the whole of Christian Scriptures;
- Be able to apply the rules of biblical interpretation in the study of Scripture; and
- Be able to better understand and exegete Scripture in applying scriptural teaching to life.
Theology: The graduate of this major will:
- Be familiar with the main themes of Evangelical Theology;
- Be familiar with the distinct emphases of Pentecostal (A/G) theology; and
- Be able to discuss and understand in depth the issues in Systematic Theology concerning the doctrines of God and Man.
Philosophy: The graduate of this major will:
- Broaden and refine reasoning skills and intellectual abilities; and
- Gain a clearer understanding of the major thinkers and developments in the history of philosophical discussion and be able to relate that understanding to the continuing exploration of philosophical issues.
Religion: The graduate of this major will:
- Have a broadening understanding of the nature of religion and its expressions in human life;
- Be conversant with the major systems in world religions; and
- Be able to present an evangelical Christian apologetic.

Integration: The student will be encouraged to draw upon all four disciplines in developing an integrated, balance and thoughtful Christian world view.

Note: Students planning to pursue ordination with the Assemblies of God should consult with their prospective District Council regarding specific course selection and requirements.

## RELIGIOUS AND MINISTERIAL STUDIES -- MINORS

## Minor in Biblical Languages

The Biblical Languages minor supplements a Biblical Literature or Religion and Philosophy major by acquainting the student with the original languages of the Bible: Old Testament Hebrew and New Testament Greek.

The minor requires 20 credits in biblical languages, specifically, 10 credits in biblical Hebrew and 10 credits in New Testament Greek. The student may not use these credits to satisfy the language arts electives required of all B.A. graduates.

## Minor in Church Music

The purpose of the Church Music minor is to provide instruction and experience which will help prepare the student for music ministry. The course offerings will broaden and enrich the student's understanding and appreciation of church music, and will develop musical talents through enhancement of skills.

The minor in Church Music emphasizes the study of Music Theory and the development of practical skills required in music ministry. Music minors must earn 24 credits in music, including 8 credits in Music Theory (1113, 1123, 1133, 1143), 3 credits in Conducting I, 3 credits in the Philosophy of Church Music, 3 credits in Church Music Administration, 2 credits of Private Music Lessons (1 piano, 1 voice), 2 credits in Ensembles, and 3 elective music credits (not including Music 1012, 1022, 2012, or 2032). The successful completion of Piano Proficiency Test I is required.

## Minor in Communication and Preaching

The Communication and Preaching minor is designed to supplement a Biblical Literature or Religion and Philosophy major. Its purpose is to provide instruction and experience in oral communication which will help prepare the student for those ministries that place an emphasis on public speaking.

The minor requires 16 credits (in addition to all General College Requirements) selected from communication and homiletics, including COMM 2242, PMIN 3313 and PMIN 3323. The remaining credits can be selected from any other communication courses. COMM 3433 is highly recommended.

## Minor in Educational Ministries

The Educational Ministries minor complements a Biblical Literature or Religion and Philosophy major. It seeks to (1) familiarize the student with the educational ministries of the local church, and (2) develop basic skills for such ministry.

The minor in Educational Ministries requires the completion of 18 credits including CMIN 2002, EMIN 2203, 3513 and CMIN 4303, plus electives selected from other Educational Ministries courses or EDUC 2012, COMM 4333, PSYC 2523, PSYC 2533 or PSYC 2553, MISS 4433, and PMIN 4313.

## Minor in Missions

The purposes of the minor in Missions are: (1) to assist Christian workers in developing an understanding of and appreciation for the Church's mission for worldwide evangelism and church planting, (2) to prepare Christian workers to develop and oversee missionary programs in the local church they serve, and (3) to help students develop basic skills needed in cross-cultural missionary ministry.

The minor in Missions requires the completion of 18 credits in Missions including MISS 2403, MISS 3203, MISS 3423 or MISS 3433, and MISS 4403.

## Minor in New Testament Greek

The minor in New Testament Greek complements a Biblical Literature or Religion and Philosophy major by providing the student with foundational knowledge and skills to study the New Testament in its original language.

The minor requires 16 credits in New Testament Greek, including 6 credits in Greek Exegesis or Hellenistic Greek. The student may not use these credits to satisfy the language arts electives required of all B.A. graduates.

## Minor in Pastoral Care

The minor in Pastoral Care seeks to: (1) familiarize the student with the ministry of pastoral care, (2) develop basic skills of pastoral care, and (3) provide the student with an integrated understanding of human nature and behavior from biblical and scientific insights. The minor is generally taken with a major in Biblical Literature.

The minor in Pastoral Care requires a sequence of 19 credits including PSYC 2513, PSYC 3503, PSYC 3513, and PCAR 3533, and one credit of field education practicum in pastoral care (unless an internship/practicum is required in the major). Electives may be selected from course work in Pastoral Care, Psychology, Sociology, and Behavioral Science.

It is strongly recommended that the student in the Pastoral Care minor consider the following courses as supportive electives: PMIN 3313 and PMIN 3323, THEO 4213 and THEO 4223.

## Minor in Pastoral Ministries

The Pastoral Ministries minor is designed to complement the Biblical Literature major. It will familiarize the student with the pastor's philosophy of ministry, duties, and relationships. The minor in Pastoral Ministries requires the completion of 18 credits in Pastoral Ministries including PMIN 3303, PMIN 3313, PMIN 3323, PMIN 3503, and CMIN 4303.

The minor in Youth Ministries consists of 18 credits including the following courses: CMIN 2002, YMIN 2313, YMIN 3313, YMIN 3323, and CMIN 4303; and electives from Youth Ministries, Educational Ministries, Pastoral Care, and/or Pastoral Ministries.

# DIVISION OF GENERAL AND PROFESSIONAL STUDIES 

Divisional Coordinator: LeRoy D. Johnson

The Division of General and Professional Studies includes subject matter in the humanities, behavioral and social sciences, natural sciences, mathematics, education, and business. Students can receive instruction in the communication skills necessary for effective writing and speaking in the English language and in reading, speaking, and writing in modern foreign languages. They can develop understanding and appreciation for literature and the fine arts, and cultivate their skills in those disciplines. They can become acquainted with past and present social forces which shape their community, in order to better understand people and exert a positive influence upon society. They can gain enhanced appreciation of God's workmanship in the physical universe, and some basic understandings of the methods of science.

## Divisional Objectives

The Division of General and Professional Studies builds upon the College's Educational Goals and the General College Requirements objectives. Students may choose one of the several majors leading to the four-year Bachelor of Arts degree, or one of the options leading to the two-year Associate in Arts degree. The specific objectives of the majors or options are listed along with their descriptions in the following pages.

The Bachelor of Arts programs instruct students in the specific skills and knowledge needed to develop successful career capabilities. Graduates should be able to integrate a Christian worldview into the practices of the careers emerging from their studies, make practical applications of theoretical foundations and principles, seek out sources for research and continuing development, and engage in lifelong learning.

The Associate in Arts provides preparatory work for transfer into other degree programs, or serves as a terminal degree for students desiring only two years of college. Associate in Arts students complete the General College Requirements and select additional course work to fulfill their own particular purposes. Success is expected in meeting the General College Requirements objectives and in the continuation of studies at transfer institutions.

## BIBLICAL STUDIES CORE

As a foundation for lifelong Christian character and service, this core seeks to enable the student to grow in biblical knowledge, in understanding Assemblies of God doctrines, and in spiritual maturity.

The student will take a minimum of 18 credits of Bible and Theology. These credits must include BIBL 1013 Exploring the Bible, THEO 1213 Christian Doctrine, either BIBL 1613 Methods of Bible Study or BIBL 2623 Principles of Biblical Interpretation, at least one 2000-level Old Testament and one 2000-level New Testament course, and at least one elective in Bible or Theology. It is strongly recommended that BIBL 2313 Acts and the Expansion of the Church or THEO 2503 Pentecostal (A/G) Doctrines be included in the courses chosen.

Students planning to seek ministerial credentials are advised to consult the credentialing body of their denomination in order to select course offerings that meet the ecclesiastical requirements.

## SECOND MAJOR IN BIBLICAL STUDIES

The 30 credit Religious and Ministerial Biblical Studies Core may be considered a second major by students who are taking a major that does not require a minor. Those students have the option of declaring on their transcript a major in Biblical Studies as well as their professional major.

## BEHAVIORAL SCIENCE MAJOR

Coordinating Professor: William Herkelrath

The major in Behavioral Science provides undergraduate education in the behavioral sciences for those students who are planning to attend graduate school or enter ministries in which a deeper understanding of human behavior is necessary. It seeks to prepare students for:

2. become aware of oneself as a Christian leader and a manager; and of others, such as superiors, associates, and subordinates in the midst of a decision-making and problem-solving environment;
3. demonstrate professional management skills required for effective leadership in business and church organizational environments; and
4. identify, apply, and evaluate ethical standards in settings which encourage economy and effectiveness in thought and deed.

## INTERDISCIPLINARY STUDIES MAJOR <br> Coordinating Professor: LeRoy D. Johnson

The Interdisciplinary Studies major provides students with the opportunity to explore a broad range of knowledge from a biblical world view. Areas of study include foreign languages, English (including TESL studies) and literature, communication, history and political science, philosophy, and religion. This degree equips students who feel called to careers other than vocational ministry. The comprehensive nature of the major may also help students prepare for graduate studies in a chosen field of interest.

Official admission to the Interdisciplinary Studies major occurs only when the student has developed a course of study in consultation with a program advisor.

In addition to achieving the general goals of the College, completing this major provides learning opportunities which enable the students to:

1. demonstrate proficiency in oral and written communication skills;
2. reason and think critically;
3. evaluate, integrate, and apply knowledge from a biblical world view; and
4. apply strategies for life-long learning.

The Interdisciplinary Studies major is comprised of these components:

| Biblical Studies Core. <br> Major (core courses). <br> Electives (any area of |

The Interdisciplinary Studies core consists of 45 credits in the breadth of disciplines of the liberal arts. Students must select one of two tracks in pursuing this degree. In either of the tracks at least 20 credits must be from upper division classes. Courses taken within the major cannot duplicate courses taken in the General College Requirements.

## COURSE SEQUENCE

Courses to be taken in the freshman and sophomore years are the same as the General College Requirements for all majors at Northwest College.

The course sequence for the junior and senior years will depend upon the student's interests. The student and his/her advisor will work together to design a sequence of study that fulfills the requirements of the Interdisciplinary Studies major. Students are advised to use their 15 credits of electives to strengthen their interdisciplinary studies.

TEACHER EDUCATION

Director: Richard Blue

Northwest College is committed to graduating men and women who will have an understanding of Christian philosophy as related to the teaching profession. The majors in the Teacher Education program lead to a four year Bachelor of Arts degree designed to prepare students for initial certification by the State of Washington. This certification qualifies the student to teach in public and private schools.

Students make formal application for admission to the Teacher Education program following the completion of Phase I foundations studies in the professional education sequence. The Teacher Education Handbook specifies all written policies and procedures which must be met prior to the admission to the Teacher Education program. Some of the essential criteria follows:

- Verification of standardized test scores on the ACT, SAT, or WPCT exam at or above the state average for the previous year;
- A cumulative GPA of 3.00 for all college or university work;
- Completion of Phase I requirements and select General College Requirements as specified by the Program, and a favorable recommendation from the Phase I faculty team;
- Achievement of a specified competency level as determined by the Teacher Education faculty in basic skills tests both written and oral, including spelling and computer literacy;
- Assessment of the student's potential for success as a teacher by faculty and professionals based upon an interview, a written selfanalysis, a personality inventory, and the student's previous academic work;
- Any student transferring to Northwest College must meet the same requirements for admission to the Teacher Education program as incoming freshmen. Admission to the College does not guarantee admission to the Teacher Education program. Questions regarding transfer status and admission to the program will be handled by the Director of Teacher Education.

Certification is granted by the Superintendent of Public Instruction. Included is a moral fitness test. Students seeking admittance to the program must be aware that if they have a prison record or have been convicted of a serious crime, they may possibly not be granted certification by the State. The individual is advised to speak with the Director of Teacher Education if they need clarification in this matter.

All students who complete a program in Teacher Education will take the General College Requirements, the Biblical Studies Core, Professional Studies in Education, and an Academic Endorsement or Major. Careful planning is essential to complete course work and other requirements in their proper sequence. No additional course work is to be taken during the student teaching semester.

Following the Professional Studies sequence, the student will be given a semester-long student teaching assignment in a public or private school. The purpose of the student teaching is two-fold: (1) the applicant must show competence in academic scholarship for the knowledge and skills requirements of the College and the State of Washington, and (2) demonstrate application of theory to overt teacher behavior at the classroom level of operation.

Acceptance into the program and completion of the program does not guarantee granting of a Washington State teaching certificate. In addition to satisfying the requirements of Northwest College, good moral character and personal fitness to hold such certification must be established by each student with the Washington State Office of the Superintendent of Public Instruction Office of Professional Practice.

In addition to achieving the general goals of the College, completing this major provides learning opportunities which enable the students to:

1. qualify for initial certification as a K-8 or 4-12 teacher in the State of Washington;
2. manage a classroom;
3. apply the principles of current educational psychology and learning theories in the classroom;
4. design and present appropriate age-level instruction;
5. articulate a personal education philosophy; and
6. plan further professional development.

## SPECIAL STUDENTS: TEACHING CREDENTIAL ONLY

Students holding four-year college degrees who enroll at Northwest College for the purpose of qualifying for an Initial Teaching Certificate must be advised by the Director of Teacher Education prior to enrollment in courses.

## ELEMENTARY EDUCATION: 125 CREDITS

The baccalaureate degree is completed when the student finishes the required 125 academic credits. The Washington State Teacher Credential Program requirements are met when the Student Teaching experience ( 15 credits) is completed.

## SECONDARY EDUCATION MAJOR SUGGESTED FOUR YEAR PROGRAM SEQUENCE

## GENERAL AND PROFESSIONAL STUDIES -- MINORS

## Business Management and Administration Minor

The minor requires 23 credits including BUSM 2103, BUSM 2203, BUSM 2303, BUSM 3103, BUSM 3303. The elective courses may be selected from other Business curriculum offerings.

## History Minor

History is a desirable foundation for various courses of study in college as well as for life. Persons with a greater understanding of history have a larger perspective from which to view events of their own times.

A History minor consists of 16 semester hours in history, excluding the three-credit General College Requirement and any major requirements. At least six hours must be upper division level and must include course work from both history and church history.

# ASSOCIATE IN ARTS DEGREES 

Coordinating Professor: William Randolph

The Associate in Arts degree is awarded for the successful completion of a two-year program which includes the major components of the fifty hours of the General College Requirements. Its shorter curriculum concentrates on subject matter which is general or vocational. There are two options available.

## ASSOCIATE IN ARTS ( 62 CREDITS)

## Completion of the Associate in Arts allows students to:

1. experience two years of foundational courses in community with other Christian students and teachers as part of their life preparation;
2. emphasize a subject area of particular interest through judicious choice of elective courses;
3. achieve the objectives of the General College Requirements; and
4. complete two years of general and introductory courses.

Students intending to transfer with this degree need to work closely with their advisor and the Northwest College Registrar's Office as different colleges have different requirements. While completion of this degree does not guarantee admission to another college or university, it helps to insure that a proper distribution of courses has been taken prior to transfer.

## HEALTH SCIENCE TRANSFER ASSOCIATE IN ARTS (63 CREDITS)

The Health Science Transfer A.A. allows students to:

1. complete two years of general and introductory courses for the purpose of transfer to another institution;
2. achieve the objectives of the General College Requirements.

In this program students engage in introductory studies for the purpose of transferring to an institution which provides the finishing studies in nursing or other health-related fields. This degree does not guarantee acceptance into such programs, and students should make every effort to conform their course selections here to specific program requirements of their intended transfer institutions. They need to work closely with the College faculty monitoring the option, with the Northwest College Registrar's Office, and with the representatives of the institution to which they will transfer.

## STUDENT LIFE

Student Handbook. The Student Handbook is issued yearly by the Dean of Students in cooperation with student leaders. It contains the policies and guidelines for students attending Northwest College.

Student Housing. Northwest is a residential campus. All single students under age 21 must live on campus unless they are: 1) commuting from parents or an approved adult relative's residence, 2) working a job which provides room and board, or 3 ) junior status ( 62 credits). Fourteen days after the official date that room and board charges begin, there still be no pro-rated refund for those who move off campus. Prior to the fourteen days there will be a $\$ 100$ charge plus loss of board and room deposits. Any requests for exemption to this policy should be directed to the Administrative Services Office. The College maintains five residences on the campus, two for housing men, and three for housing women. Furnished for two students each, all rooms have single beds, mattresses, desks, chests of drawers, bookshelves, and chairs. One of the five residences is an upper-division hall. This residence is specifically designed for students who are 21 years of age or older or junior status and above. Application for this hall can be made through the Student Life Office. There is an additional charge for upper-division rooms (see the financial statement). Students provide their own bedding, pillows, rugs, and other items. Each residence has automatic coinoperated laundry facilities. (A room reservation deposit is required.)

Married Student Housing. The College maintains seventy-eight resident student apartments designed for married students with or without children. They consist of thirty-six units with 1 bedroom $/ 1$ bath, twelve units with 2 bedrooms $/ 1$ bath, and thirty units with 2 bedrooms $/ 2$ baths. Application can be made through the Administrative Services Office. The College also assists married students in finding suitable housing in the community.

Health Service. The College provides a nurse and health center. The nurse is available at regular times and by special appointment. A student group health plan is made available to all students should they desire coverage.

Special Diet. (Special consideration requested for medical reasons.) When, because of medical or health conditions, students are required to have a special diet, they should submit a written notice from their doctor
to the Student Life Office. The doctor's statement should provide all information regarding restrictions/requirements. Every effort is made to meet the special requirements of diet when health is a factor. The College reserves the right to charge for special diet provisions if necessary.

Automobiles. Permits are necessary for the operation and parking of student vehicles on campus. Vehicles must be registered with the Student Life Office. Violation of vehicle regulations may result in fines and/or cancellation of the permit. It is expected that students bringing cars on campus will have them properly insured and properly licensed with the state in which they are registered. Drivers must be familiar with the Washington State Driver's Handbook.

Guidance and Counsel. The College maintains a counseling program to assist the students' development academically, vocationally, socially, and spiritually. Each student is assigned to a faculty advisor and is also free to meet with other members of the counseling staff. (All personal counseling appointments are made through the Student Life Office.)

Marriage. Inasmuch as marriage involves new adjustments to life and many added responsibilities, students under 21 years of age will not be allowed to marry during the academic year without special permission.

## PRINCIPLES AND PRACTICES OF CHRISTIAN CITIZENSHIP

As an institution of the Assemblies of God, Northwest College has standards for student behavior based on biblical precepts and principles, the doctrinal statements of the church, and on widely-held practices within the fellowship.

The student handbook is published to acquaint students with the way of life at Northwest College. It will tell them what they can expect of the College and what the College expects of them as they seek to prepare themselves for a life of Christian service.

Christian maturity involves more than adherence to explicit scriptural statements of right and wrong. It involves a total commitment to the Lordship of Christ and a life of dynamic discipleship. The mature Christian recognizes scriptural principles that govern conduct and applies these principles to every area of attitude, conviction, and behavior.

The Scriptures establish basic principles which should guide the development of Christian character and govern all Christian behavior. These include:

- the Lordship of Christ over all of life and thought. This involves wholehearted obedience to the moral law of God as taught in the Bible and exemplified in the life of Christ; the careful stewardship of mind, time, abilities, and funds; opportunities for intellectual and spiritual growth; and the care of the body as the temple of the Holy Spirit;
- the responsibility to love God with all our being and to love our neighbor as ourselves. This means that unselfish love should be the motive in all of life's decisions, actions, and relationships;
- the responsibility to seek after righteousness, to practice justice in all dealings with one another, in social institutions, and to help those in need;
- the need to exercise freedom responsibly, lovingly, and sensitively within the framework of God's moral law in relationship to the Assemblies of God fellowship at large and to other communities; and
- access through Jesus Christ to the forgiveness of God and to the help of the Holy Spirit in doing heartily what God requires (Romans 14:4-10, 15:1-3; Phil. 1:20-27; 1 Cor. 8:7-10; Col. 3:23; 2 Cor. 6:14-18; James 1:27, 4:4; 1 John 2:15-18).

The College affirms Paul's description of behavior unfitting for a Christian: "The acts of the sinful nature are obvious: sexual immorality, impurity and debauchery [indulgence in sensuality]; idolatry and witchcraft, hatred, discord, jealousy, fits of rage, selfish ambition, dissensions, factions and envy, drunkenness, orgies and the like" (Galatians 5:19-21a, NIV).

When students apply for admission, they must indicate that they have made a personal commitment to Jesus Christ as Lord and Savior and that they are willing to live by the community rules adopted by the College. This means abstaining from practices morally wrong such as stealing, use of profane, vulgar language, sexual sins, dishonesty, cheating, gambling, pornographic literature, the possession of or use of illegal drugs, or alcoholic beverages.

Students of Northwest College are expected to recognize their responsibility to God by careful use with their time and to engage only in such activities as may contribute to their spiritual, moral, intellectual, and physical well-being. They should avoid questionable entertainment and activities including those which diminish a person's moral sensitivity. Nothing should be viewed or listened to which contains unacceptable views or portrays Christian principles in a negative light. As Christians we must realize the importance of being an example of Christian living both on and off campus.

In keeping with the College's goal of guidance toward holy living the following are attitudes and actions affirmed and encouraged: "But the fruit of the Spirit is love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, and self-control" (Galatians 5:22-23b, NIV).

The College will promote Christian citizenship in instruction, corrective confrontation, and discipline, when necessary for the purpose of development of Christian lifestyle in the students.

An acceptable citizenship record also includes financial responsibility to the College and must be maintained in order to qualify for graduation or participation in student offices or extra-curricular assignments.

The College reserves the right to modify and amplify the standards and dates set forth in the Student Handbook and to use its discretion in the interpretative enforcement of all ideals and standards of conduct, however communicated.

The College Administration also reserves the right to require any student who is considered to be out of harmony with the goals and the spirit of the College to withdraw, including involuntary administrative withdrawal.

Northwest College is committed to a policy of non-discrimination with regard to race, color, national origin, sex, age, marital status, or physical disability. Persons having questions regarding College policies relating to these matters should contact the Vice President for Academic Affairs.

## STUDENT ACTIVITIES

"And Jesus increased in wisdom, and stature, and in favor with God and man" Luke 2:52.

Northwest College, through its programs and activities, seeks to develop the whole person--mental, physical, spiritual, and social.

All School Banquet. An evening in springtime is set aside for a semi-formal gathering at which students, faculty, and staff enjoy social and spiritual fellowship.

International Students Banquet. An evening in the fall semester is set aside for an informal gathering of the College's international students for a time of fellowship with faculty, administration, and students from missionary families.

Associated Married Students. All married students are members of this organization which provides opportunities for social, intellectual, and spiritual growth for married students and their spouses.

## Associated Men Students and Associated Women Students.

These include all Northwest College men and women respectively. They seek to promote social, intellectual, and spiritual growth of the student through their activities.

Associated Student Body. Each student is a member of the Associated Student Body. Membership of the Student Council includes the officers of the Associated Student Body, the officers of each class, the Associated Men Students, the Associated Women Students, Married Student Association, KNCR (the College radio station) President, and the KARISMA (yearbook) Editor. The Council guides and promotes student activities and projects.

Chapel. Chapel at Northwest College is held daily and attendance is required. A grade of "S" or " F " is given depending upon the attendance record. Students who plan to work during the school term should plan their schedule to include chapel.

Church Attendance. While at Northwest College, students are expected to make a choice of a church home where they will be available for participation. Students are encouraged to become an active part of their home church.

Christian Service. Students at Northwest College are preparing themselves to help others through Christian ministry. All students are encouraged and expected to participate in some aspect of the Student Ministries and Missions programs, and in local church ministry.

Convocation. Traditionally, the new school year is formally opened at this time. Officials, ministers, alumni, and friends join faculty and students for this occasion.

Cultural Series. The Cultural Series is sponsored by the Administration and the Associated Student Body to enlighten the students' understanding of the world in which they live. Professionals are brought to campus to share their wisdom, knowledge, and skill learned through experience and travel.

Fall Social. In the fall of each year, the Associated Student Body sponsors an informal evening of fun, related to seasonal themes such as harvest time.

Intercollegiate Athletics. Northwest College is a member of the National Christian College Athletic Association (NCCAA). Sports offered include men's basketball and soccer; women's basketball and volleyball; men's and women's cross country and track and field.

Intramurals. The Administration and the Associated Student Body jointly sponsor a strong intramural program for men and women. The intramural program seeks to give positive opportunity for athletic competition within the College life setting. The campus facilities include the gymnasium, tennis courts, an athletic field, and an outdoor Basketball court.

Missions Convention. The annual Missions Convention provides missions emphasis and fellowship. Missionaries from the area and on deputational assignment are invited as special guests. This function is an Associated Student Body activity with special arrangements being under the supervision of the Student Missions Council.

The Karisma. The College yearbook is produced by a staff chosen by the Student Council and approved by the Administrative Council.

Student Ministries. This organized student outreach consists of a variety of ministry opportunities - Children's Ministry, Campus Ministry, Community Ministry, Evangelism Ministry, Gospel Team Ministry, Prison Ministry, Youth Ministry, and Airport Ministry. Included in this outreach of Student Ministries are Internship opportunities providing practical experience in specific areas of Christian Education, Missions (including summer and short-term assignments), Pastoral Care, Pastoral Ministry, Church Music and Youth Ministry. Student teams selected and approved for summer ministry also provide an outreach of service for interested and qualified students.

World Missions. Northwest College students are given opportunity and encouragement to be active in world missions. This ministry provides outreach and counsel for projects, fairs, brunches, conventions, prayer groups and internships, all related to world mission ministry.

Spiritual Emphasis. Every day spiritual values are emphasized in chapel. In addition several weeks are set aside for special emphasis and growth. The Spiritual Emphasis Weeks focus on commitment. The Missions Emphasis Weeks highlight world evangelization. Other special emphases are scheduled through the year such as the Staley Lectures and the Church Ministries Lectureship Series.

## ADMISSIONS

Admission to Northwest College is granted to applicants meeting the College admissions requirements without regard to race, color, religious affiliation, or national origin. However, admissions are made on a selective basis according to the following criteria:

1. Character. All applicants must give evidence of sound moral character. Evidence of that character includes a vital experience of salvation through faith in Jesus Christ. Applicants are admitted only upon satisfactory recommendations from sources specified on the College Admissions Application form.
2. High School Graduate. Applicants must be graduates of a recognized high school. The following years of preparatory work are recommended: English, 4; Math, 3; Social Studies, 2; Science, 2; Foreign Language, 2; and Electives, 3. Applicants may be admitted on the basis of satisfactory scores on the General Educational Development Tests as established by State Competency Standards.

Students who are home schooled, but show the ability to benefit from college coursework by scoring at the 75th percentile or above on the SAT or ACT (for college-bound students), may also be admitted.

A limited number of mature persons who are not graduates of a high school may be admitted on a selective basis as special students.
However, special students are not allowed to earn degrees, diplomas, or certificates at the College.
3. International Students. All international students whose primary language is not English will be required to submit a TOEFL (Test of English as a Foreign Language) score as a part of the application process (College Code: 4541). A minimum score of 500 is needed for admission to the College.

## Admissions Standings

Regular Student Status. A regular student is a student who meets all admissions requirements for matriculation into a degree program at the College. Regular standing is granted approved applicants who have achieved a minimum cumulative GPA of 2.3 in their high school or college coursework (if a transfer student).

Probation Student Status. Probation status may be granted to a limited number of selectively admitted students who, in the judgment of the Enrollment Services Committee, show promise of benefit from the opportunity to pursue work at Northwest College. A minimum incoming cumulative GPA of 2.0 is normally required for admission on probation.

Special Student Status. A special student is a student who enrolls for a limited course load (not more than nine hours) and who is not pursuing a degree at the College. The individual may take courses for audit or for credit after regularly-enrolled students have registered.

A special student in the Certificate in Christian Studies program is allowed to enroll for a full load in the Christian Studies program. To qualify for the certificate, however, the individual must meet the same requirements as regular students.

## Admissions Application Procedure

1. Application. Application for admission is made on the form provided by the College. Forms may be secured by addressing the Office of Enrollment Services. Application deadlines are August 1 for Fall and December 15 for Spring. Students whose files are not completed by those dates will normally not be admitted for that semester. No assurance of acceptance should be assumed until the applicant receives a letter of approval from the Office of Enrollment Services. The application fee must accompany the application before it will be considered. The applicant will send or deliver reference forms provided by the College to the appropriate persons.
2. Transcripts. It is the responsibility of the applicant to see that an official high school transcript and official transcripts for any college work completed are sent to the Office of Enrollment Services. This may be done by filing a letter of request with the schools concerned. After the application, application fee, reference forms, SAT or ACT scores, and transcripts have been received, the Enrollment Services Committee will evaluate the application. Applicants will be notified by mail whether or not they are accepted. The application fee is non-refundable.
3. Health Forms. Approved applicants are to complete and return certain health forms: an emergency authorization form is to be completed in all cases and turned in together with a medical history report. The College reserves the right to require a medical report from the applicant's physician where questions about physical or mental health emerge.
4. Enrollment Deposit. An enrollment confirmation deposit must be submitted by all students accepted for admission. Residence hall students must submit an additional deposit to hold a room. Deposits and confirmations of enrollment plans should be submitted as early as possible. Deposits for fall semester enrollment are refundable or deferrable to a future semester upon written notice of cancellation or deferral received by August 1st. Those canceling for the spring semester must give written notice of cancellation or deferral at least one week prior to the beginning of classes to receive a refund or defer the deposit to a future semester. Thereafter refunds are granted only for reasons of illness or emergency. In the event that an applicant falsifies or withholds information on the admissions application, the College reserves the right to revoke, suspend, or modify an admissions approval.
5. Re-application. Former students who have been out of enrollment for one semester or more must complete an Application for Re-Entry and submit one current reference. They will not be required to obtain new transcripts other than for college work taken during the interim away from Northwest College. Students who are returning only to graduate without additional course work must complete the re-application process.

## Entrance Tests

For purposes of admissions evaluation, guidance, scholarship eligibility, and counseling, applicants must take the ACT (American College Tests, College Code: 4466) or the SAT (Scholastic Assessment Tests, College Code: 4541).

Normally these tests are available at high schools on a set schedule. Arrangements should be made to take them as early as possible. Transfer students coming in with a minimum of 20 transferable semester credits from an accredited college or university are exempted from submitting test scores.

## Advanced Standing

Northwest College accepts credits earned through the Advanced Placement Testing Program (AP), International Baccalaureate (IB), the College Level Examination Program (CLEP), the Defense Activity for Non-Traditional Educational Services (DANTES), and Running Start. Recommendations regarding college credit are made by the Registrar. For credits earned through testing while a matriculated student refer to Academic Policies and Information, Alternative Ways to Earn Credit.

## Military Credit

Those having had military service may petition the Registrar's Office for physical education credit upon presenting appropriate documentation.

## Transfer of ICRC Associate in Arts

Northwest College accepts the A.A. degree from those colleges in the State of Washington whose degree requirements conform to the guidelines of the Intercollege Relations Commission. The degree will cover many of the College's general studies requirements, and will confer 60 semester units of work in transfer to Northwest College.

## Transfer of Credit From Accredited Colleges and Universities

Students desiring to transfer to the College from another institution of recognized accredited status must follow the general instructions for admission and must see that transcripts of previous college work are sent to the Office of Enrollment Services. Course work in parallel courses or areas of instruction will be considered for transfer provided that they show a grade of C or better.

A limit of 20 semester credits from extension and correspondence courses may be applied to a four-year program at the College or a pro-rata thereof to programs less than four years in length. All credits earned through correspondence must be completed prior to the beginning of the final semester preceding graduation. Students should take no more than two correspondence courses concurrently, and correspondence courses taken during the academic year should be considered to be part of the student's total academic load.

## Transfer of Academic Credit From Unaccredited Sources

Northwest College considers work presented from unaccredited sources on a selective basis. When accepted, such work must be validated by completion of a minimum of two semesters enrollment and 30 credits at Northwest College with grades of 2.0 (C) or better, and possibly by examination. Only evaluations and commitments made in writing will be considered as applying in each case. College-level work considered occupational or remedial is not recognized for transfer.

A maximum of 60 credits will be accepted from unaccredited sources to apply to a Bachelor of Arts degree at Northwest College.

Acceptance of such credits will be dependent upon the College's evaluation of the equivalency of coursework and level of instruction.

## Residency Requirements

At least one academic year (with a minimum of 30 semester credits) must be completed at Northwest College, and the final semester of work before graduation must be taken on campus irrespective of the amount of previous work completed at Northwest College. One-third of the major requirements must be completed in residence at Northwest College.

A student registered at Northwest College may not receive credit for a concurrent enrollment at another institution without approval. Students interrupting their programs at the College may, upon returning, graduate under the requirements of the catalog in effect during the semester in which they first enrolled, provided graduation is within six years from the end of that semester. (The summer semester may count as a part of the semester before or after it.) However, a student may graduate under the requirements of the current catalog. It is expected that the requirements of the catalog chosen will be followed as a whole.

## FINANCIAL INFORMATION

## Costs

Northwest College is a private, church-related college. Therefore, no operating funds from taxes or public funds support its operation. Each student is charged tuition and certain fees which cover about eighty-five percent of the cost of his/her education. The remainder of the costs is provided by gifts from friends of the College, supporting districts, endowment income, and other earnings. For a list of the tuition charges and fees, see the Tuition and Fee Schedule.

## Room And Board Information

The board/room charge is required of all students living in the residence halls, and entitles students to meals beginning on the Thursday evening before semester classes begin and expiring with the noon meal the day after final examinations each semester. The College reserves the right to change the rates during the year if it is deemed necessary.

## Educational Benefits

Northwest College is approved as an educational institution for the training of veterans or their dependents. Application should be made at their local Veteran's Administration Office for Certificates of Eligibility. Those qualifying under the extended Social Security Act should apply for benefits at their local offices of the Social Security Administration. The College will make the proper certifications as to enrollment and attendance after the student has enrolled in the College.

## Financial Policy

Recognizing the necessity for the prompt payment of all school fees, not only as a good business principle but for the sake of character development, the Department of Education of the Assemblies of God has set forth the following financial policy:

In order to improve our present educational institutions and to guarantee their future, each student is expected to reimburse the school for the full amount of his obligation on or before the close of each semester. No final examinations will be taken until a satisfactory arrangement has been made with the Administrative Services Office. No diplomas, certificates, degrees, or transcripts shall be expected or
received until satisfactory payment is made for all school obligations. Students will not be eligible to participate in commencement ceremonies until all accounts are paid in full.

## Payment of Accounts

The regular school year is divided into two semesters of approximately four months each, and tuition is based on the semester. It is the policy of the College that there can be no outstanding past due account at registration. All past due and old accounts must be settled or alternate arrangements must be agreed upon with the Administrative Services Office prior to registering for the following semester. Negotiations other than full payment cannot be handled during registration since it would create unnecessary delays for other students.

Tuition, fees, and dormitory room and board charges are to be paid in full before the first day of classes each semester unless prior arrangements have been made with the Administrative Services Office.
All students must sign a contract/promissory note agreeing to payment terms prior to the start of classes each semester.

## Deferred Payment Plan

The College Board of Directors has approved an alternate semester payment plan with flexible, but certain, terms. Dependent on evidence of ability to pay, students may be offered this Deferred Payment Plan. This payment schedule will be calculated by subtracting disbursable financial aid from total semester charges. The resulting net semester cost, which is eligible for this Deferred Payment Plan, will be due as follows (There is no deferred payment plan for Summer School):

| FALL | SPRING |
| :--- | :--- |
| $40 \%$ - prior to first day of classes | $40 \%$ - prior to first day of classes |
| $20 \%$ - September 25 | $20 \%$ - February 25 |
| $20 \%$ - October 25 | $20 \%$ - March 25 |
| Remaining balance due November 25 | Remaining balance due April 25 |

## Finance Charge

A finance charge of $1 \%$ will be assessed on Fall semester student account balances at the end of October, November, December, and each subsequent month. A finance charge of $1 \%$ will be assessed on student account balances at the end of February, March, April, and each subsequent month. Finance charges will be added to the next scheduled payment.

## Late Payment

Fall Semester. Fall Semester balances will be assessed a Late Payment Fee on balances which exceed $20 \%$ of total semester charges on October 31, and any balance remaining on November 30 and on the last day of subsequent months.

Spring Semester. Spring Semester balances will be assessed a Late Payment Fee on balances which exceed $40 \%$ of total semester charges on February 28, and 20\% of the total semester charges on March 31, and any balance remaining on April 30 and on the last day of subsequent months.

The Late Payment Fee is $\$ 50.00$. If the late amount is less than $\$ 50.00$, the Late Payment Fee will be $100 \%$ of the late amount.

Students failing to meet the payment schedule may be suspended from classes or school. No Northwest College scholarships or discounts will be awarded to any student who does not have all prior accounts paid in full by the first class day of the semester. Students are required to pay in advance for the Summer Sessions. The payment of accounts policy also applies to those qualifying for veteran's benefits.

The College reserves the right to assign delinquent accounts to an agency for collection and/or attach student's credit report. The venue of defaulted Federal Perkins Student Loans shall be in King County, State of Washington or as determined by the holder of the defaulted Promissory Note.

## Cancellation of Registration

The Registration Cancellation policy applies to all semesters. Please note that private music lesson fees (after the contract is signed) and housing deposits have cancellation penalties not indicated below. See the Academic Calendar for the applicable First Day of Class.

## FEDERAL LOANS

## Federal Perkins Student Loan <br> (formerly known as National Direct Student Loan - NDSL)

The Federal Perkins Student Loan is a revolving fund administered by Northwest College and regulated by federal regulations. This loan is repayable to Northwest College at $5 \%$ interest per year. The amount of the loan is determined by financial need and availability of funds. The aggregate loan limit for undergraduate students is $\$ 15,000$.

Repayment for new borrowers begins nine months after graduation, withdrawal, or failure to attend at least on a half-time basis. Repayment of principal may be extended over a ten-year period (depending on the
amount of loan or approved circumstances) with a minimum payment of $\$ 40.00$ per month.

There are deferment (payments temporarily suspended) and cancellation provisions for special circumstances, such as: deferment provisions for at least half-time course of study at an eligible institution; forbearance; approved graduate fellowship program; approved course of study that is part of rehabilitation training program for disabled individuals; unemployment, economic hardship. Cancellation provisions for: teaching, Head Start Programs, military service, Volunteer Service, law enforcement/correction office, nurse or medical technician, Child or Family Service Agency, total disability and death.

If a student is delinquent (as determined by the Promissory Note) in his/her Federal Perkins Student Loan or NDSL payment, he/she will not be eligible to receive deferment, cancellation provisions, nor will official academic transcripts be released.

## Federal Stafford Loan Program

Subsidized Federal Stafford Loan. A Stafford Loan is a low interest loan made by a lender such as a bank, credit union, or savings and loan.

- First year students ( $0-29$ credit hours)............................................. $\$ 2,625$
- Second year students (30-59 credit hours) ...............................\$3,500
- Students who have completed two years ( $60^{+}$credits) .............. $\$ 5,500$

The maximum loan indebtedness allowed for undergraduates is $\$ 23,000$. Repayment begins six months after the student leaves school or ceases to be enrolled on at least a half-time basis.

Unsubsidized Federal Stafford Loan. The Unsubsidized Federal Stafford Loan Program has the same provisions as above with the following differences:

- All students, regardless of income, are able to obtain a student loan.
- Interest payment begins on the day the loan is disbursed.
- Student is responsible for interest accrued during in-school and deferment periods.
- Interest payments can be paid monthly, quarterly, or be capitalized by the lender and added to loan principal.
- Borrower can receive subsidized and unsubsidized loans for the same period.
- Combined total of both programs cannot exceed Federal Stafford Loan Program annual limits.
- Students must apply for subsidized loans first.

## Federal Parent Loan for Undergraduate Students (PLUS)

This loan is intended for parents of undergraduate students to help meet educational costs. Repayment begins within sixty days after proceeds are disbursed to borrowers. Interest rate is a variable rate based on the average 91 -day Treasury bill rate, plus $3.1 \%$ with a cap at $10 \%$. Applications are available in the Financial Planning Office. The annual limit is cost of education minus other financial aid.

## Federal Work Study (FWS)

This federally-funded program provides on-campus jobs to students with demonstrated financial need. Students work an average of 12-15 hours per week (depending on the position). Positions filled by Federal Work Study students include custodial, cafeteria, grounds maintenance, and library. An interview with area supervisors is also required for placement. Applications are available in the Office of Human Resources and Job Search. Contact the Financial Planning Office for additional information.

## Washington State Work Study (SWS)

This program, funded by Washington State, provides a limited number of off-campus employment opportunities to students with financial need. Students applying for employment in the program must be enrolled in the Division of General and Professional Studies. State work study placements must be related to academic or career goals. Contact the Financial Planning Office for additional information.

## EMPLOYMENT

An employment service is offered to students through the Office of Human Resources and Job Search. Time and attention are given to the placement of, and counseling with, students who need employment. In addition to the employment service offered, the College employs a number of students in on-campus positions and participates in federal and state funded employment programs.

For further information on the following programs, application forms, or other financial planning issues, please contact the Financial Planning Office: Northwest College, PO Box 579, Kirkland, WA 98083, (206) 889-5210.

## REGISTRATION

## Registration Procedure

All students must register on the scheduled registration dates. A fee is charged for late registration. Late registration is from Monday through Friday of the first week of classes. Students are not permitted to register for credit after Friday of the first week of the semester except by special permission of the Admissions Committee.

No one will be admitted to classes until his or her registration is completed and approved by the Registrar's Office, and tuition and fees have been paid or satisfactory arrangements have been made with the Administrative Services Office.

A student who registers for class but decides not to attend must notify the Registrar's Office in writing before the first day of class. This notification will cancel the tuition and related charges, except for the Registration Fee. See the section Cancellation of Registration under Financial Information for more information.

## Orientation

New students, including transfer students, are to meet at the time and place indicated in their enrollment instructions. New students will be given certain preregistration examinations for purposes of appraising scholastic preparation to insure accurate academic advising.

## Class Eligibility

Before enrolling in any course the student is responsible to ensure all prerequisite courses or requirements have been fulfilled.

In general, Freshmen take 1000-level courses, Sophomores $2000-$ level, Juniors $3000-$ level, and Seniors $4000-l e v e l$ courses. Students are permitted, however, to take courses below, and one level above, their academic standing. For example, a Sophomore may be allowed to take courses numbered 1xxx-3xxx.

Any exceptions to prerequisites or eligibility for a specific course must be approved by the instructor.

## Adding / Dropping Courses

Students may change their registration through adding or dropping courses by filing a properly completed Add/Drop Form in the Registrar's Office and paying the associated fee. After Friday of the first week of classes, new courses can not be added and courses can not be dropped. (See Withdrawing from a Course for additional details.)

## Withdrawing from a Course

After the deadline for adding / dropping a course (the first Friday of the semester), students can only withdraw from a course. In this event, the course remains on their transcript as a permanent part of their academic record, with a permanent grade of "W", "WU" or "WS" (see Grading).

## Withdrawing from College

Withdrawals from college (withdrawing from all courses and leaving college) may be made by obtaining the proper form from the Registrar's Office, completing it, securing appropriate signatures, and filing it with the Registrar. If it is impossible to follow this procedure because of illness or emergency, the student must notify the Registrar within one week after leaving the College. The College reserves the right to require a letter of consent of parents or guardians for students under twenty-one years of age. A student who is absent from all classes for more than two weeks consecutively without contacting the College to explain the reason for his or her absences may be dropped from all course enrollments with grades of "F."

Northwest College Academic Catalog - 1996-1997

## ACADEMIC POLICIES AND INFORMATION

## Academic Load

College instructors assume two hours of outside study for each hour in class. Thus, a student carrying a fifteen-credit academic load has a forty-five hour work week. Students who must continue employment while attending college should, therefore, reduce their loads to maintain a manageable work week. A student working more than twenty-five hours per week should limit his or her academic load to 13 credits. If the student is working more than 33 hours the academic load should be limited to 10 credits.

- Full-time Student 12 or more credits in a semester
- Part-time Student Less than 12 credits in a semester

Students must have their advisor's permission to enroll for more than 17 credits in a semester.

## Academic Standing

- 1-30 semester credits completed satisfactorily Freshman
- 31-61 semester credits completed satisfactorily $\qquad$ Sophomore
- 62-92 semester credits completed satisfactorily Junior
- $93+$ semester credits completed satisfactorily Senior

## Academic Honesty

Northwest College expects complete honesty from students in all areas including their academic life. Any kind of academic dishonesty is a serious violation of Christian standards, which may result in the student receiving an " F " for the course, dismissal from the course, or possibly being dismissed from the College.

Academic dishonesty includes cheating on assignments or examinations, plagiarizing (misrepresentation of another's work as one's own original creation), submission of the same (or essentially the same) paper in more than one course without prior consent of all professors concerned, and sabotaging another student's work. Any student disciplined by a faculty member for alleged academic dishonesty has the right to appeal the disciplinary action.

## Grade Points

Grade Points (or quality points) are the numerical equivalent of letter grades and are assigned for each credit earned with a given grade according to the scale indicated above. For example, an "A" in a five-credit course would give the student twenty grade points. These points express the quality of a student's performance in numerical terms for the purpose of determining scholastic achievement and individual and graduation honors.

## Grade Point Average

A student's grade point average is determined by dividing the total number of grade points earned during a given period by the number of credits for which the student was enrolled and received a regular grade during the same period. Students' semester and cumulative grade point averages are calculated and reported each semester. GPAs are calculated as follows:

| SEMESTER <br> GRADE POINTS | SEMESTER <br> CREDITS | SEMESTER GRADE <br> POINT AVERAGE | CUMULATIVE GRADE <br> POINT AVERAGE |
| :---: | :---: | :---: | :---: |
| Semester 1: 47 | 15 | 3.133 | 3.133 |
| Semester 2: 50 | 17 | 2.941 | $(47 / 15=3.133)$ |
| Semester 3: 65 | 17 | $(50 / 17=2.941)$ | $(97 / 32=3.031)$ |
|  |  | 3.824 | 3.306 |
|  |  | $(65 / 17=3.824)$ | $(162 / 49=3.306)$ |

## Eligibility for Special Groups and Student Leadership

All participants of special groups (e.g. varsity athletics, traveling choirs, speech team) and student leadership must maintain a 2.0 GPA to qualify for membership in the group. In addition, the College reserves the right to establish minimum credit loads each semester for these students.

## Academic Probation

Entering students whose records reflect grade averages below C level (2.3) are admitted on academic probation. Students are placed on probation if their cumulative grade point averages fall below:

| EARNED CREDITS | CLASSIFICATION | MINIMUM GPA REQUIRED |
| :--- | :---: | :---: |
| 1-30 earned credits | Freshman | 1.7 Cumulative GPA |
| 31-61 earned credits | Sophomore | 1.9 Cumulative GPA |
| $62-92$ earned credits | Junior | 2.0 Cumulative GPA |
| $93+$ earned credits | Senior | 2.0 Cumulative GPA |

Probation is not intended as a punitive measure but as a warning with opportunity for improvement. Probationary students are under the supervision of the Office of Vice President for Academic Affairs or its representative during the period of probation. In order to ensure their
concentration upon academic work during the probationary period, students on probation are restricted in their academic loads (no more than twelve hours plus P.E. activity), are restricted in their participation in certain college activities, and may be restricted in their work loads. To aid them in reaching their potential, they may be required to attend special classes or counseling sessions. (Any student averaging below 2.0 might be restricted, regardless of their academic standing.) When their cumulative grade point averages rise above the stated levels, students are removed from probation.

## Academic Disqualification

After the spring semester, all probationary students are evaluated to determine their eligibility for further enrollment at Northwest College. If their cumulative grade point averages have been below the stated levels for two or more semesters, they are placed on academic disqualification (suspension). Exceptions may be made if the last semester's grades indicate a clear improvement and average above 2.0.

Although not directly connected to Financial Aid disqualification, often students on Academic Probation or Disqualification also have their Financial Aid status affected. Students should consult the Financial Aid section of the catalog, and confer with the Financial Planning Office for further details.

Appeals for reinstatement after academic disqualification may be directed to the Vice President for Academic Affairs on forms provided at the receptionist's desk. Normally, at least one semester must elapse after disqualification before students will be considered for reinstatement, during which time they should have reevaluated their educational plans or taken steps to improve their scholastic skills. Disqualified students may also petition for permission to enroll as Special Students to take selected courses for personal benefit.

## Incomplete Grades

A student may request an Incomplete grade for reasons of illness or emergency. A written request for an Incomplete must be submitted to and approved by the professor of the course before the final examination. The Incomplete must be removed from the record by the end of the succeeding semester. Otherwise, the grade automatically converts to an "F" on the student's record.

## Course Repeats

Students may repeat any course for the purpose of changing a grade. The latest grade earned is considered the grade of record as it pertains to credit toward graduation and to the official transcript. The earlier grade is replaced by an " R " designation and the credit value is removed from the record.

## Grade Reports

Grade reports will be distributed to all students following the close of each semester. The grade reports will be mailed to the student's permanent mailing address if not picked up. To ensure delivery of grades, changes in the permanent mailing address should be reported to the Registrar's Office by the last day of instruction.

## Honors

Students who earn a current grade average of 3.5 or better, while carrying twelve credits or more, are placed on the Dean's List, which is published at the conclusion of each semester. Full-time students with a current grade point average of 3.3 to 3.499 are placed on the Honors List.

## Alternate Ways to Earn Credit

Credit for Prior Learning (CPL). Northwest College has established a program whereby enrolled students may earn college credit for learnings that have occurred outside the traditional college classroom through a portfolio method. Additional information and credit limitations are available from the Registrar's Office and the Office of Academic Affairs.

Advanced Placement (AP). Students who have completed collegelevel studies in high school under the Advanced Placement Program may be granted credit in comparable College courses upon enrollment.

[^3]details concerning these tests. Not more than 30 credits of CLEP and DANTES can be applied to any degree. All credits earned through CLEP and DANTES must be completed prior to the start of the junior year. Transfer students entering with junior standing will be allowed one semester to earn CLEP and DANTES credits.

Other standardized proficiency examinations. Standardized tests which can be used to show proficiency in areas that are not covered by AP, CLEP, and DANTES may be available.

Course Challenge Procedure (CCP). A formally admitted student may challenge certain college courses by examination without actually registering in the courses. The student is allowed only one opportunity to qualify for credit by examination in any given course. Credit by examination may not be counted toward the satisfaction of the residence requirement. Special fees are charged.

## Continuing Education Unit (CEU)

The College awards the Continuing Education Unit to adults who participate in non-credit continuing education activities administered by the College. CEUs are not to be equated with the college credits applicable toward a degree. One CEU is equal to ten contact hours of participation in an organized continuing education experience. CEU credit is placed on the National Registry for Continuing Education and is useful where they may be prescribed by employment or professional training requirements.

## Class Attendance

Classes are conducted with a view to helping students develop in knowledge and character, and the student's attendance is assumed. If absences occur, the student is responsible for work missed. Because classes differ in purpose and character, individual teachers determine their specific requirements in course syllabi. All faculty are to include their attendance policies, if any, and to define absences, tardies, early exits, and the effect that these may have upon grades. Appeals relating to attendance should be addressed first to the teacher.

A student who is absent from all classes for more than two weeks consecutively without contacting the College to explain the reason for his or her absences may be dropped from all course enrollments with grades of "F."

Class absences necessitated by required participation in College-sponsored activities are excused through the Academic Affairs Office. The faculty or staff member submits a list of students participating, and the Academic Affairs Office informs teachers of times the students are to be excused.

## Auditing Courses

An auditor is a person who wants to sit in a class but not be held responsible for the course work. At no time will an auditor have space priority over an enrolled student. Out of courtesy, the auditor will not participate in discussions except as allowed in consultation with the professor. Enrolling as an auditor is done during the registration period and requires the prior permission of the professor. An audit is not recorded on the class roles or on the student's transcript.

## Withdrawing from a Course

After the deadline for adding / dropping a course (the first Friday of the semester), students can only withdraw from a course. In this event, the course remains on their transcript as a permanent part of their academic record, with a permanent grade of "W", "WU" or "WS" (see Grading).

## Withdrawing from College

Withdrawals from college (withdrawing from all courses and leaving college) may be made by obtaining the proper form from the Registrar's Office, completing it, securing appropriate signatures, and filing it with the Registrar. If it is impossible to follow this procedure because of illness or emergency, the student must notify the Registrar within one week after leaving the College. The College reserves the right to require a letter of consent of parents or guardians for students under twenty-one years of age. A student who is absent from all classes for more than two weeks consecutively without contacting the College to explain the reason for his or her absences may be dropped from all course enrollments with grades of "F."

## Class Schedules

Classes are scheduled in fifty minute periods beginning at 8:00 a.m. and running until 9:20 p.m. A chapel service, during which no classes
meet, is scheduled at mid-morning each day. The student arranges a schedule according to the requirements of his or her own program. The College reserves the right to cancel any courses for which there is not sufficient registration.

## Special Courses

#### Abstract

Periodically, the College offers students the opportunity to register for courses that do not meet in the traditional classroom format. At times, a special Topic may be offered over a specific area of study to enrich the curriculum. At other times, a student may desire to work with a faculty member through Guided Research or Directed Readings in a specific disciplines. The Courses of Instruction section lists Special Courses and a brief definition of each. In all cases, a professor will insure the proper quantity and quality of work assigned and performed. The student's advisor must approve the registration schedule, including Special Courses. Ultimately, the student is responsible to insure that the Special Course satisfies the specific requirements of his/her degree.

## Summer College

The Summer College session is designed to provide courses in areas of selected interest for enrichment and acceleration of students' progress toward graduation.

The schedule is designed in a concentrated manner so as to be contained within one- to four-week time frames. From time to time shorter seminars and workshops are scheduled with guest lecturers who have expertise in special topics of current significance or professional value. Summer internship programs are also registered as part of the summer session. A current summer session schedule may be obtained from the Registrar's Office.

## Transcripts

An official copy of a student's academic record at Northwest College that bears the official seal of the college and the signature of the Registrar is referred to as a transcript. Requests for transcripts must be accompanied by the students signature and a $\$ 2.00$ fee for each copy. Phone orders for transcripts cannot be accepted. NOTE: Financial indebtedness to the college will prevent the release of a student's transcript. If a student is delinquent (as determined by the Promissory Note) in his/her Federal Perkins Student Loan or NDSL payment, he or
she will not be eligible to receive deferment, cancellation provisions, nor will academic transcripts be released.

## Student Records

The Family Educational Rights and Privacy Act of 1974 (FERPA) specifies rights and privileges regarding student records. The written institutional policy adopted by Northwest College in compliance with FERPA is available from the Registrar's Office. Annual notice regarding FERPA rights is provided in the College's Student Handbook and Catalog.

1. Right to Inspect. You have the right to review and inspect substantially all of your education records maintained by or at this institution.
2. Right to Prevent Disclosures. You have the right to prevent disclosure of education records to third parties with certain limited exceptions. It is the intent of this institution to limit the disclosure of information contained in your education records to those instances when prior written consent has been given to the disclosure, as an item of directory information of which you have not refused to permit disclosure, or under the provisions of FERPA which allow disclosure without prior written consent.
3. Right to Request Amendment. You have the right to seek to have corrected any parts of an education record which you believe to be inaccurate, misleading or otherwise in violation of your rights. This right includes the right to a hearing to present evidence that the record should be changed if this institution decides not to alter the education records according to your request.
4. Right to File a Complaint with the U.S. Department of Education. You have the right to file a complaint with the Family Policy and Regulations Office, U.S. Department of Education, 400 Maryland Avenue S.W., Washington, D.C., 20202, concerning this institution's failure to comply with FERPA.
5. Right to Obtain Policy. You have the right to obtain a copy of the written policy adopted by this institution in compliance with FERPA. A copy may be obtained in person or by mail from: Northwest College, Registrar's Office, P.O. Box 579, Kirkland, Washington, 98033.

## GRADUATION

## Graduation Requirements

1. Credit hour requirements. Candidates must complete the minimum total credit hours for the degree, diploma, or certificate prescribed by the program or major in which they are enrolled.
2. Grade requirements. Candidates must achieve a minimum 2.0 Cumulative GPA on all courses taken at Northwest College.
3. Residence requirements. Residence refers to course work completed at Northwest College. The following are required:

- A minimum of 30 semester credits,
- One-third of the major requirements,
- The final semester of course work must be completed at Northwest College, and
- All graduates, at the time of graduation, must be enrolled or eligible to be enrolled for the semester in which they graduate (see Application, Reapplication).

4. Course requirements. Candidates must complete all requirements of their degree or certification.
5. Graduation under a particular catalog. A student may graduate under the requirements of the catalog in effect during the semester in which first enrolled, provided graduation is within six years from the end of that semester. (The summer semester may count as a part of the semester before or after it.) However, a student may graduate under the requirements of the current catalog. It is expected that the requirements of the catalog chosen will be followed as a whole.
6. Citizenship requirements. Candidates must have attained a satisfactory citizenship record, including chapel attendance requirements, as of the date of their graduation.
7. Financial requirements. Candidates must have all accounts with the College paid in full to be eligible to graduate and participate in Commencement activities. This includes charges for subsequent summer courses needed to fulfill graduation requirements.

## 8. Limitations.

- Correspondence and extension work -- 20 credits
- CLEP/DANTES -- 30 credits
- Ensemble music -- 12 credits for BA; 8 credits for AA
- Physical Education -- 4 credits
- BSCI 3561 Student Development Training - 4 credits

- Degrees -- Students may receive only one degree at a time.
- Double Major -- Allowed only if no course is used to satisfy a requirement for both majors.

9. Second B.A. Degree. Northwest College will grant a second Bachelor of Arts degree only if the student's second degree is substantially different from the first Bachelor of Arts degree earned at Northwest College.

- A minimum of 30 additional semester hours will be required for the second B.A.;
- will include all major requirements;
- must be taken in residence at Northwest College;
- will not include any correspondence work and CLEP credit;
- admission into a second B.A. program will be granted only when a program contract has been formulated by the student in consultation with the student's advisor and the Vice President for Academic Affairs; and
- course work taken prior to approval of the program contract may not be allowed to count toward the second B.A.

Student Responsibility. While the College provides advisement services to its students through faculty advisors, the Registrar's Office, and other sources, the final responsibility shall rest with the student for fulfilling all requirements for graduation, including those identified in an official program audit. This shall include requirements resulting from program modifications affecting course offerings as may be adopted by action of the faculty.

## Graduation Procedures

1. Application Deadline. Applicants for graduation must file for graduation in writing with the Registrar's Office the semester prior to the semester of graduation and no later than the end of the first week of the semester in which they plan to graduate.
2. Graduation Fee. All applicants for graduation are assessed a fixed, non-refundable Graduation Fee to cover the costs connected with the diploma and Commencement (whether or not the student participates in the public Commencement ceremonies). If the student cancels the application for graduation, the Graduation Fee is retained and applied when the student does graduate.
3. Graduation Audit. It is the responsibility of the student to arrange for an audit of his/her records in the Registrar's Office to verify remaining graduation requirements.
4. Course Completion. It is the responsibility of the student to satisfactorily complete all course work and grade point average requirements as specified in the applicable academic catalog.
5. Course Completion Deadlines. Degrees are conferred each semester (including summer session). The deadlines for completion of all work in order to have the degree conferred are listed below. (All credits earned through correspondence must be completed prior to the beginning of the final semester preceding graduation.) Students who do not complete all course work by these deadlines will be reclassified as graduating the next semester, providing all course work is submitted by that semester's deadline.

[^4]6. Commencement Participation. No person will be presented for the public graduation ceremonies who has not been certified by the respective college officers as having satisfied each of the foregoing requirements. Exceptions can be made for pre-enrolled summer school students who will complete their requirements in the summer school session. Exceptions can also be made for those cross-enrolled in another institution in an approved enrollment where the terminus point overlaps that of the College.

## Graduation Honors

- Cum Laude. Students who have maintained a 3.5 to 3.6 grade point average will have their degrees conferred cum laude.
- Magna Cum Laude. Students who have an average of 3.7 to 3.8 will have their degrees conferred magna cum laude.
- Summa Cum Laude. Students who have achieved an average of 3.9 to 4.0 will have their degrees conferred summa cum laude.
- Who's Who In American Colleges and Universities. Selected students from the junior and senior classes are nominated by the faculty for inclusion in this national publication each year. Selections are based on character, leadership, and academic record.
