Students are to remember that the library is a place for study. It is not the place to conduct social life. Your consideration of others who want to study is desired.

The Publicity Committee has started a clipping display of newspaper and periodical clippings which carry publicity on the Northwest Bible College. This display will be posted on the bulletin board outside the library in the Faculty Building. Students who notice publicity on the school in the newspapers or periodicals which they may scan or read, are encouraged to bring them to the attention of Mr. Ahlstrom, librarian, so that they may be secured and posted.
