

STUDENT BULLETIN

October 26, 1962

Request forms for flu injections are due today, October 26. If permission has not yet arrived from your parents, turn the forms in as soon as it arrives.

* * *

Please be sure all books you take from the library have been properly checked out.

If after using a book in the library you are uncertain where it belongs, please don't just guess! Leave it on a table, or bring it to the desk. Out-of-place books often remain missing for as long as several months, and other students are inconvenienced as a result.

If anyone has the following books or knows where they are, would you please let the library know or see that they are returned?

Stores - General zoology, 3d ed., 1957.

Denton - Role of the minister's wife.

Mitchell - Gone with the wind.

Church Attendance Reports must be in no later than at the conclusion of the 5th period class on Wednesdays.

* * *

Let us be young ladies and gentlemen

Refrain from chewing gum in chapel.

Find an appropriate place for your pencil - do not carry it behind your ear.
