Winter quarter Registration for students now on campus is scheduled for next week - November 11-15. Registration booklets will be available in the Administration Building. It is not necessary that winter quarter charges be paid at the time of registration, but they should be paid on or before the date that the new quarter commences, January 7.

Program Outlines for all programs in the Junior College and Bible College have been prepared to assist students in planning both their immediate schedules and their long range schedules. If any student did not receive one and desires a copy, he may secure a copy from the Registrar or make use of the reference set which has been placed in the library.

It is desirable that students learn how to plan their own schedules, and not depend upon their advisors to do so. It is the primary role of the advisor to check and approve schedules.
