On the basis of indicated student interest the current plans are to offer Hebrew 305, 306, 307 next year. It will be a nine hour course (three hours per quarter). Present plans are to offer this course every third year so that next time it would be offered would be the 1967-68 school year.

-----  
Some consideration is being given to modern language offerings for the coming year. Would you please check below and return to the office of the Dean of Education if you are interested in, and would probably take, a course if German is offered next year.

\_\_\_\_\_ yes, I am interested in taking German during the 1964-65 school year.
