HERE IS SOMETHING OF REAL INTEREST:

The following is one of the results of a study made of student use of a library.

When grade point averages were checked, it was found that the GPA of all borrowers was 2.5, and that of the nonborrowers 2.3. But 62 percent of all A students had borrowed, compared with 44 percent of the B students, 39 percent of the C's 22 percent of the D's, and only 14 percent of the F's.
