"What difference does it make?" Learn the significance of these questions and many more in "The Life and Ministry of Paul." EXAMINATION SCHEDULE SPRING 1988

No Semester is officially ended until all tests are completed. Students should not plan to leave campus before the end of the testing schedule and should not ask to take exams early! Students who leave early will receive an "F" on the final. Make your plans for work, travel or weddings with this in mind.

NOTE NEW POLICY: "If a student should have three exams on the same day he/she may petition the instructor of the third exam for testing at a different time. The time of the rescheduled test would be determined in consultation with the professor, but the test must be taken within the 4 days of finals."

To find the time of your final exams, look for the regular class meeting time below. The day the test is scheduled will then be found at the top of the column, and the time of testing will be found at the left. Physical Education activities classes are tested during their last class meeting rather than during test week. Unless your professor announces otherwise, tests will be conducted in the class' regular meeting place.
