Coffee and Tea

# THE PRESIDENCY OF DENNIS A. DAVIS

Dennis A. Davis began his term as president in 1990 and has been Northwest College's first alumnus president.

During his administration, Northwest has joined the Coalition for Christian Colleges and Universities and established several new academic majors, including Business Management and Administration, Secondary Education, Eco-intensive Biology and the Adult Degree Completion Program (LEAP).

The campus has been physically enhanced during President Davis' leadership by the remodeling and expanding of the Pecota Student Center, the acquisition of the current Dennis A. Davis Administrative Center, and the remodeling of the Henry H. Ness Academic Center, including Rice Hall. The Hurst Library and the entire campus have been fully computerized.

The College community will remember President Davis' tenure by the conviction he had for students to be people who excel in their field of study and preparation and know God intimately. He will be leaving an enduring legacy of excellence that will be felt by generations of students to come. Thank you, President Dennis Davis, for your faithful, committed life that you have given to Northwest College.
