

Dear NU Family,

Happy Leap Day! The concept of Leap Day has always intrigued me. It exist because, contrary to popular belief, the earth does not orbit around the sun exactly every 365 days, but every 365.2421 days. That extra bit of time might not seem very important, but it adds up enough to throw us out of wack when we are trying to coordinate our schedules with the sun. So every four years, we need this extra day to “make up for lost time” and get our calendar back in synch with the heavens.

Just like our calendar, it seems like I am always “getting back in synch with the heavens”. As I go through the motions of my daily responsibilities and relationships, I have to seek a heavenly mindset while staying in the real world. This is what makes personal devotional time and fellowship in a faith community so important to me. I hope that as you enter into spring break next week, you’re able to pursue some activities and engage in some conversations with the Lord and others that refresh and restore your heavenly perspective.

“Since you have been raised to new life with Christ, set your sights on the realities of heaven, where Christ sits in the place of honor at God’s right hand. Think about the things of heaven, not the things of earth. For you died to this life, and your real life is hidden with Christ in God.” (Colossians 3:1-3, NLT)

You’re invited to stop by the Pecota Lounge from 2-4PM TODAY! Campus Min staff and student leaders will be available to talk, answer questions, and hang out. See you there!
