

# Carry the Call

**Northwest**  
COLLEGE

The most important requirement for admission to Northwest College doesn't even show up on our application forms...

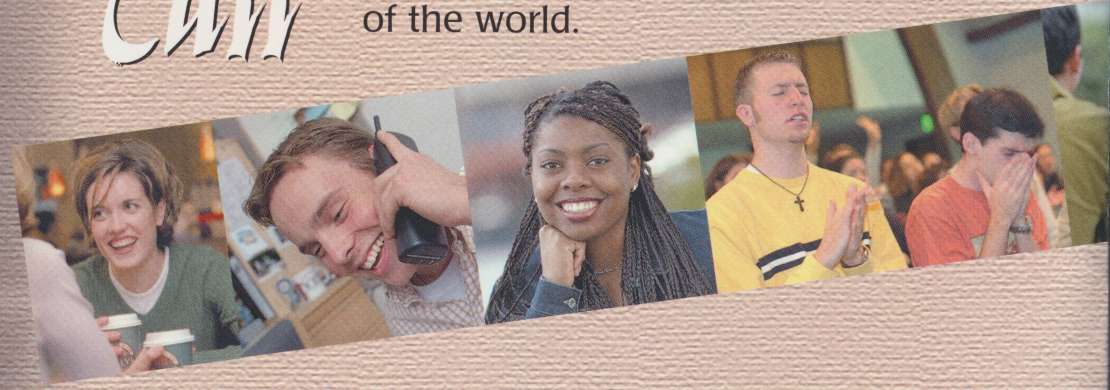

*because there's no way we can measure your heart.*

But that is the best reason to come here:

because you **care.**

Because you care about following Christ, you care about serving His church, and you care about reaching the ones who are not yet in His flock, even if you have to go to the other side of the world.

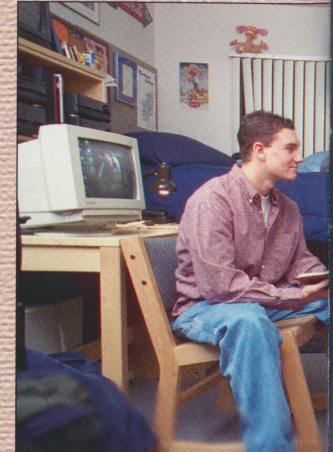

# Carry the Call

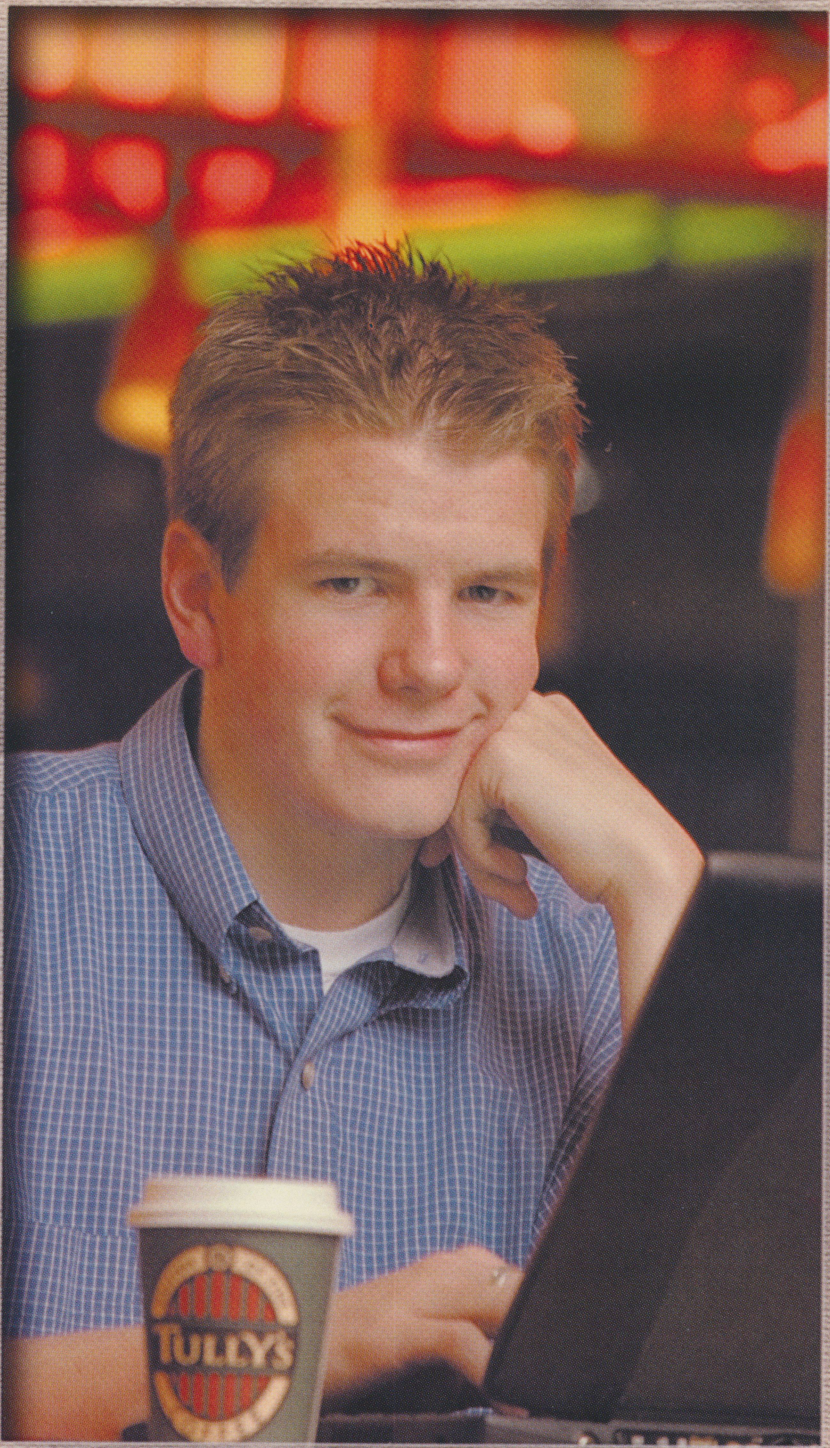

## As iron sharpens iron...

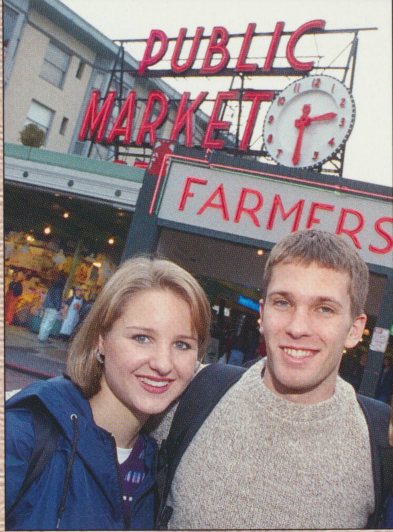

In coffee shops and residence halls, you will share conversations with other students and with faculty. The minutes fly by, enjoyable and comfortable.

You don't even realize, until years later, how much these daily moments shaped the character of the person you became.

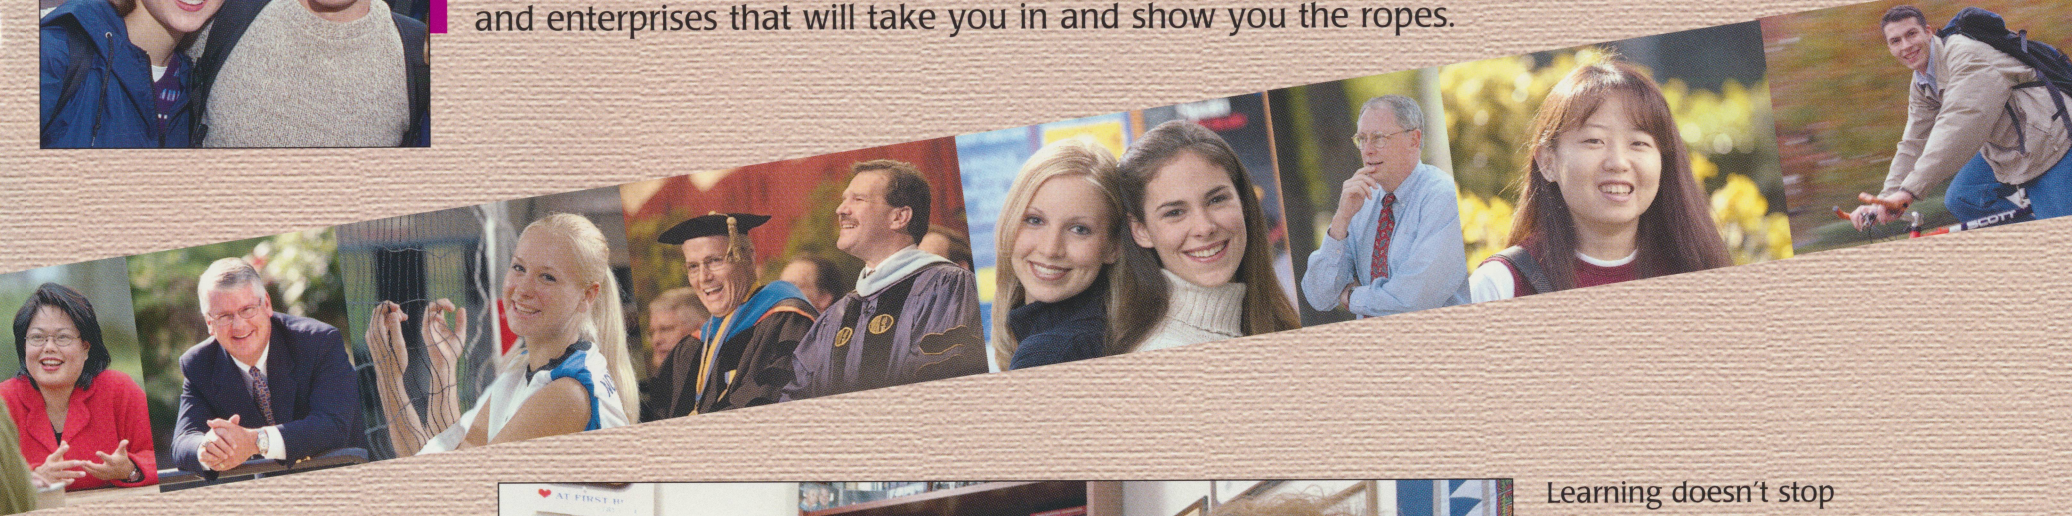

**Proverbs 27:17**

Northwest College is on the east side of **Seattle**. Which is, of course, the home of corporations like Nordstrom, Starbucks, Boeing, Microsoft, Amazon.com and Nintendo. Now, if companies like these choose to make Seattle their home, don't you think it would be a great place to live for a few years while you attend college? Look at it this way. If you need to work, there are lots of great part-time jobs available. And if you need an internship, there are great ministries and enterprises that will take you in and show you the ropes.

Learning doesn't stop just because class is over. Your instructors will take the time to help you grasp the lesson and to understand how it applies to you.

The people who make the greatest impact for the Kingdom of God are those who invest the time and effort to **prepare.**

**But there are no shortcuts to a successful life.**

It's not easy to learn a new language, to cultivate new knowledge, or to master new skills. But each

day you spend, literally using your head, will pay dividends for the rest of your life, and for eternity.

## Carry the Call

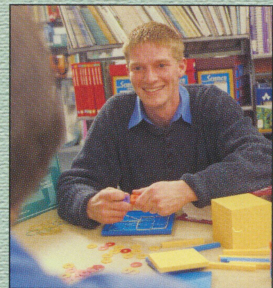

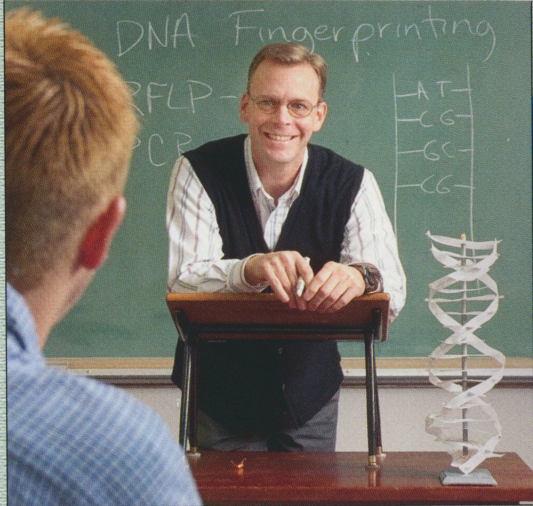

### If everyone were an eye...

No matter what your interests, no matter what your skills, there is a role for you in the Kingdom of God.

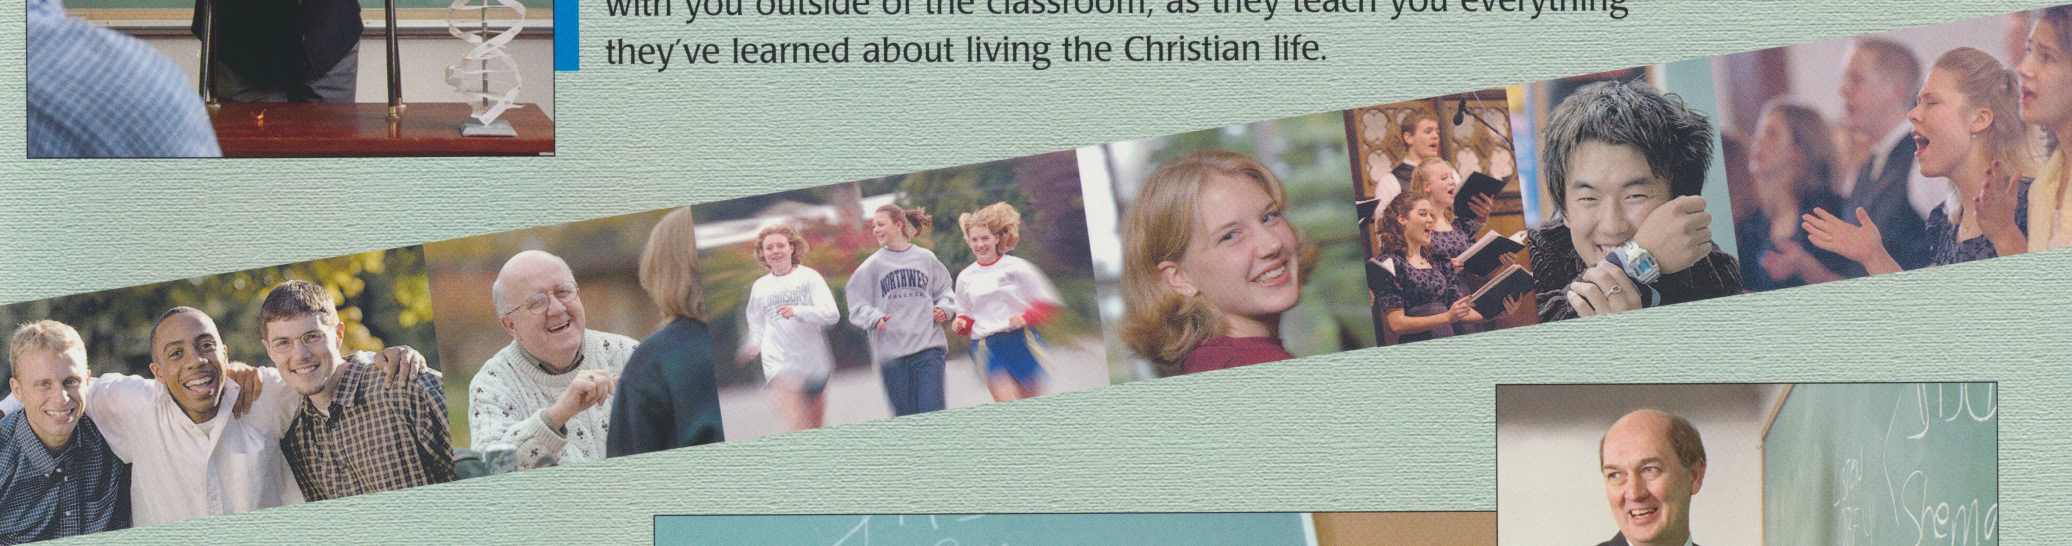

We have dozens of academic programs. There is one

that is just right for you, as you prepare to enter a world that needs to hear the message about the love of an unchanging God.

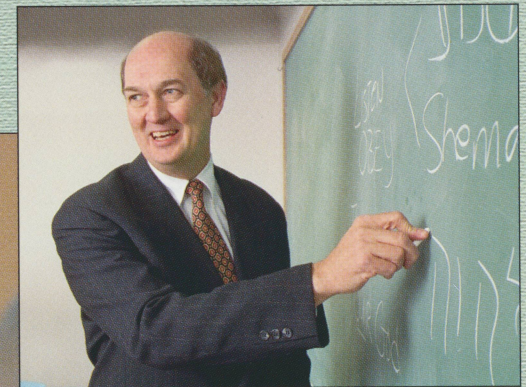

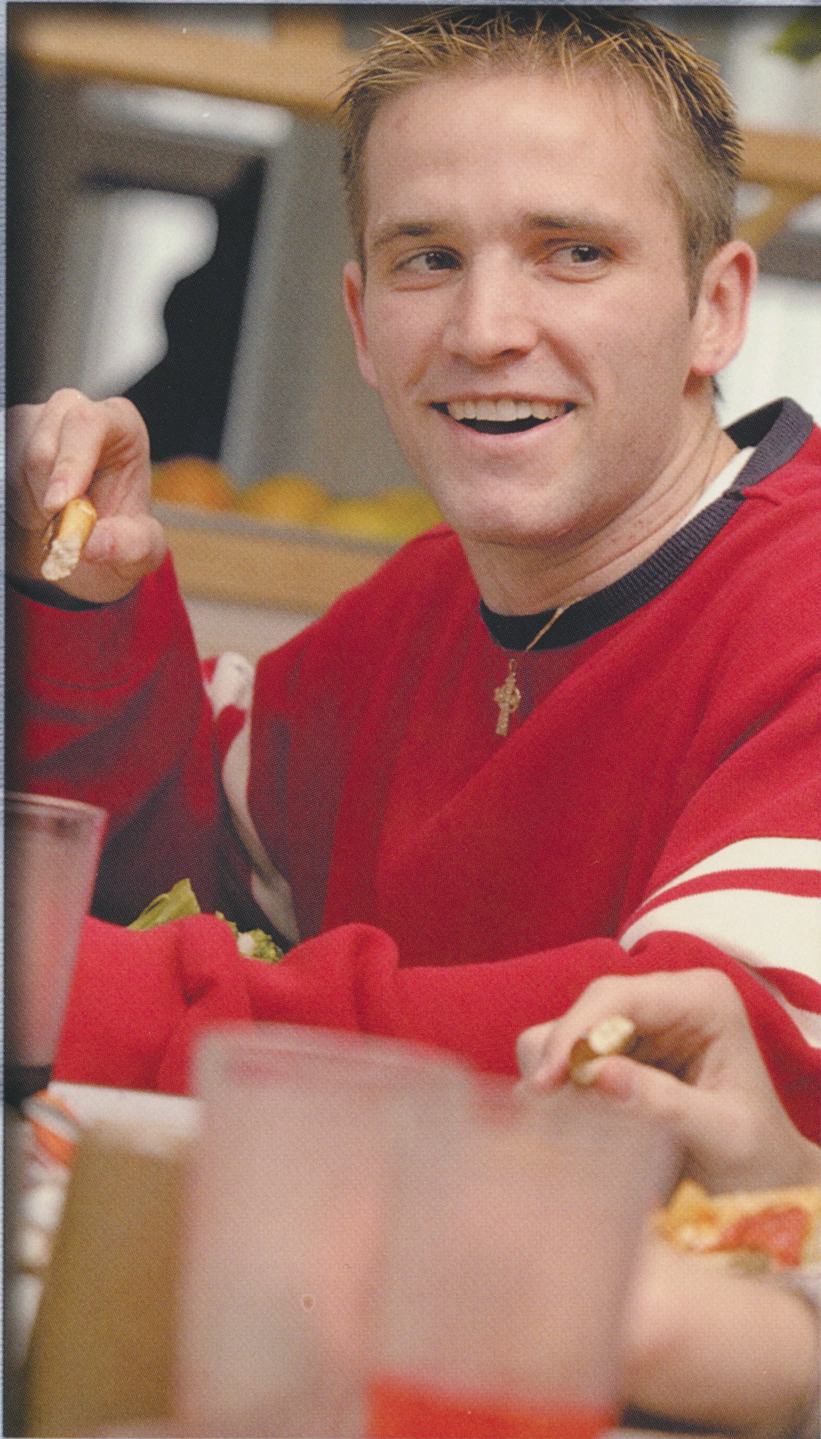

The most important quality of a college is its **faculty**. After all, a beautiful campus, by itself, cannot prepare you for life. Buildings can't challenge you. Landscaped grounds can't pray for you. On the other hand, your professors at Northwest College will interact with you in the classroom, as they teach you what they know about a myriad of subjects. But even more important, they will interact with you outside of the classroom, as they teach you everything they've learned about living the Christian life.

With a degree from Northwest College, you will join an army of alumni who have succeeded in graduate programs, professions, and ministries around the world.

Whether illuminating the intricacies of business or the nuances of Hebrew, our faculty have the credentials and experience to challenge and equip you for a life of service and significance.

The secret of success is in your hands.

For it is with your hands that you put to work everything that you have learned.

And it is with your hands that you **share** the treasures that have been entrusted to you.

The steward who buried his talent was punished.

***The steward who invested***

***his talent was rewarded.***

After all, life – especially the Christian life – is not a spectator sport.

It's for participants.

## Carry the Call

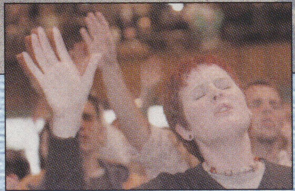

*There are varsity and intramural sports for both men and women.*

### **An athlete trains...**

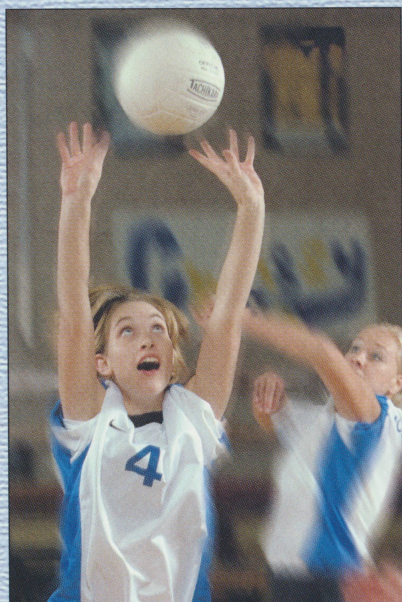

The New Testament is filled with references to athletic competition. Participation in sports will help you acquire the discipline and dedication you will need to pursue and claim the prize that God has for you.

**I Corinthians 9:25**

The most versatile place on campus is our **chapel**. It's where we worship God and hear from His ministers. It's where we are motivated to reach the world and equipped to do so. And it's where we share with the others in this great college community – students, faculty, and staff. If you intend to Carry the Call, you will learn to use your hands – raising them in praise to our Heavenly Father, and reaching out with them to serve our brothers and sisters in Christ.

**Peanut Butter 'n' Jesus**  
Summer ministry teams are just one of the ways you can discover and develop your gifts for ministry.

## Academic Programs
