

ARTHUR B. LANGLIE  
SEATTLE, WASHINGTON

July 22, 1946

Mr. Karl J. Hambro  
Startinget  
Oslo, Norway

Dear Sir:

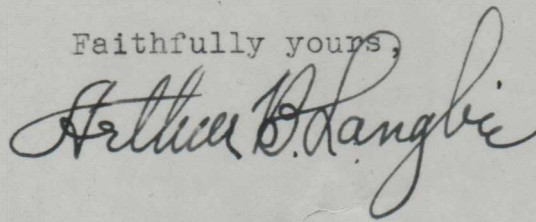

You have visited in Seattle in our state of Washington so many times and know our people here so well that I have asked the bearer, Dr. Henry H. Ness, a distinguished leader in our state, to call on you for such advice and assistance as you may be willing to give.

Dr. Ness is a very good friend of mine and is making this trip to Europe in the interest of building stronger Christian ties among the peoples of the world. Like many of us, he recognizes that improved relationships between nations depend upon organized action in the moral and spiritual realm. He has been moved, as have other Christian leaders in our country, to go to Europe to develop this better understanding if possible, bringing back to our people a more accurate picture of how we can help in developing this objective.

Recently I had the privilege of meeting the Norwegian delegation to the I. L. O. while they were here and frequently see your friends.

I sincerely hope that your new tasks are meeting with success.

Faithfully yours,

ABL/pr
